

NETWORK MAPPING FOR EMPLOYER ENGAGEMENT

Use this grid to list entities in your area that also provide employer engagement services. This list includes information about potential partnerships, an acknowledgment of possible duplication of services, and possible referrals to meet specific employer needs.

This should be considered a “working document” that you update as you learn new information.

Remember the 5Cs; Contact, Connection, Communication, Coordination, Collaboration. Reflect on where you are and what moves you to the next level of partnership.

Opportunities and obstacles:

I have been invited to attend the monthly luncheons but feel out of place. I am not sure how to promote myself as a partner to businesses within the chamber.
