Modified Curriculum: The coursework for classes on this transcript reflect a modified curriculum and meet all expectations of the Inclusive Higher Education Certificate.

How Did we Make this Happen?

1. Each school took the certificate application through the universities individual certificate application and approval process
2. This involved filling out the application, meeting with committees, making requested revisions, and meeting with committees again
3. After all three schools received approval from their individual institutions we sought approval from the Colorado Commission on Higher Education
4. We each worked with our individual schools to design and ensure that the students would receive a high quality certificate that looks like the degrees issued at our schools
5. We worked to develop an articulation agreement so students can transfer from Arapahoe Community College to UNC or UCCS

Certification Application Included:

- Overall description of the work we do
- Details on how our offices are structured
- Course requirements
- Graduation requirements
- Benefits to students
- Details about the structure of our offices
- How the work we do aligns to the university mission
- Cost
- Paths to completion

Certificate Approval Form
