Paid employment in college

Attending Millersville has changed my life - it has helped me become very independent and the program is getting us ready for the real world. I have coaches that support me and they are there if I need assistance with homework. I also have a job coach that is there to support me to apply for jobs on campus.

For anyone that is looking to go to college, I say go for it.

Janeen Simmons
Millersville University student

KU-TPE

Supporting Inclusive Academic Engagement of Youth with Intellectual Using Universal Design for Learning

Mary E. Morningstar, PhD
**University of Kansas Transition to
Postsecondary Education**

mmorningstar@ku.edu

KU THE UNIVERSITY OF
KANSAS

KU-TPE Overview

- 2 Year Non-Degree Seeking Program
- Career Development Certificate
- Inclusive Academic Coursework
- Career Development & Work-Based Learning
- Residence Life (Optional)

KU THE UNIVERSITY OF
KANSAS

Inclusive Academic Supports

- 9 hrs. Required Coursework
 - UNIV 101
 - EPSY 210
 - C&T 598
 - 3 hrs. Communication
 - LSDT 201 or COMS 130 or 220, etc.
 - 3 hrs. Health & Wellness
 - HSES 260, SW 303
 - 12 hours Electives
 - Aligned to career path
- Early Identification of Coursework & Planning
 - UDL Training
 - Collaborative Planning: KU TPE & Instructor
 - Student “At a Glance” and Scheduled meeting with Instructor before Classes start
 - Ongoing problem-solving during semester

Universal Design for Learning

STRATEGIC NETWORKS:
THE **HOW** OF LEARNING

Action & Expression

For strategic, goal-directed learners, differentiate the ways that students can express what they know.

AFFECTIVE NETWORKS:
THE **WHY** OF LEARNING

Engagement

For purposeful, motivated learners, stimulate interest and motivation for learning.

RECOGNITION NETWORKS:
THE **WHAT** OF LEARNING

Representation

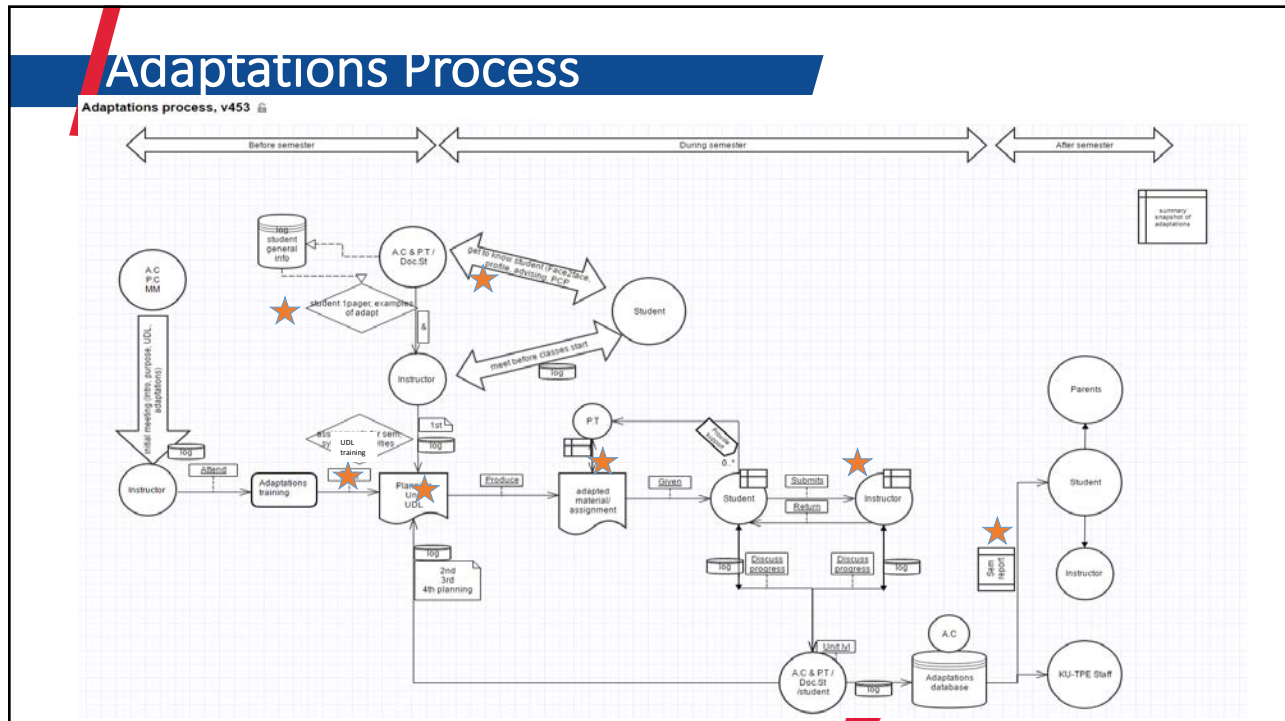

For resourceful, knowledgeable learners, present information and content in different ways.

CAST's UDL on Campus
<http://udloncampus.cast.org>

Adaptations Process

Adaptations process, v453

UDL Collaborative Planning

- Syllabus Review & Discussion
- Identify essential learning outcomes
- Accommodations vs. Adaptations
- Development of Adaptations
- General vs. Specific Adaptations

- Great Participation
- Hardworking
- Great Listener
- Follows direction
- Work well with others

- Having an example before I do the task
- Visual Learner
- Having a quiet environment to concentrate on my work

- Read
- Sign Language
- Play ukulele/guitar
- Signing
- Taking Walks
- Working out
- Concentration Camps

- International Sign Language Interpreter
- Writer

- Verbal and in person communication
- Talking through assignments
- Emailing my teachers is easier for me to know what I want or to ask/tell them.
- Typically like to stay after class to discuss with my teachers

- Note Taking
- Extra Time on Exams
- Reduced/Minimum Distraction
- Comparing my notes to others

- Going through instructions before assignment is due
- Option to retake exams
- Prefer multiple choice for exams
- Taking a break in exams
- Breaking down study guide for specific details

- Social Service League
- Humane Society
- Pet World
- Hilltop Daycare
- SUA (Fine Arts committee)
- AAAC

[illegible]

Accommodation vs. Adaptation

Accommodation: Note-Taker

Stress response:
 Distress: staying awake at night b/c you're excited.
 distress: when you appraise it as negative.
 ↳ It's not the thing that causes the way we view it, but how we appraise it.
 The Stress Response:
 ↳ Look up this slide.
 Fight or Flight response:
 ↳ There is so much on this slide. You should look this up, b/c it tells a lot about how our body reacts.
 ↳ This is a survival response, so it needs to happen fast!

Adaptation: Guided Notes

The Stress Response

- All animals, including humans, have the ability to respond to emergencies they **perceive as** _____.
- The **sympathetic** _____ **system** [1/2 of the **Autonomic Nervous System (ANS)**] responds to activate the body to respond to a possible threat. This response is known as the "_____".
- The _____ ("_____ **or** _____" **response**) is a series of physiological changes that occur in the body.

Addressing Variability in Learning

In-class activities & Major unit projects

Think about:

- **Representation**- WHAT of learning
- **Engagement**- the WHY of learning
- **Action & expression**- the HOW of learning

Representation

- WHAT of learning- how to represent information to students in different ways
- Examples...

Social Justice Unit

What is Social Justice?

- Social justice encompasses diversity (the presence of difference) and multiculturalism (inclusion of a multiplicity of cultures).
- The practice of promoting and protecting human rights and responsibilities, with a particular emphasis on the economic and social rights of society's most vulnerable groups.

Twenty-first century
justice /advocate
ness, equitabl
of a cause.
title: justice
the moral

Education & Jobs: By the Numbers

- Women make up 47% of the workforce
- Women represent:
 - 33% of full-time physicians
 - 32% of full-time lawyers
 - 24% of full-time CEOs
 - 71% of full-time psychologists
- Women earn:
 - 70.4% of male lawyers earnings
 - 76.1% of male social scientists earnings
 - 82% of male physicians earnings

Education & Jobs: By the Numbers

- 1962: women earned 59 cents/dollar earned by white men
- 1990: women earned 71 cents/dollar earned by white men
- 2000: women earned 76 cents/dollar earned by white men
- 2011: women earned 80 cents/dollar earned by white men

Supplemental Material for Social Justice Unit

Social Justice Presentation

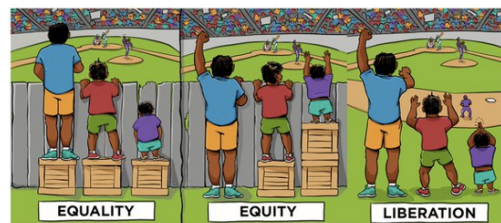

Stereotype: An assumption made about a person before getting to know them. Stereotypes are commonly used but they are often wrong people are very complex. Everyone is different.

Diversity: The differences between people.

Culture: The habits and customs people share in a certain group.

Example: KU students like to say "Rock Chalk Jayhawk". KU Students are the group and

Social Justice

How to improve social justice for everyone:

- Don't use stereotypes and don't assume things about people you do not know.
- Understand that people have opinions that are different than your and respect that.
- Understand how your identity may be different from someone else.
- Get to know people who are different than you

How to get involved in social justice at KU:

- Join a diverse student organization EX. Center for Community Outreach or Student Involvement and Leadership Center

Guided notes for video watching assignment

LDST 201 – Skillfully Intervening PART 2

1:42 The author describes the 4 Competencies of Adaptive Leadership (i.e. Manage Self, Diagnose the Situation, Energizing Others, & Skillfully Intervening) as being "simultaneous." DEFINE *simultaneous*:

5:59 A technique for Skillful Intervention is "Be willing to step outside your comfort zone." Why is that so important?

6:35 If you don't know your _____, you are not going to be able to be effective in your intervention.

9:06 Engaging people involves "inclusion" (not exclusion). DEFINE *inclusion*:

13:12 In order to effectively intervene, we need to engage people with "skin in the game." What does that description mean?

17:06 Skillful Intervention involves "creating conditions for collaboration." DEFINE *collaboration*:

Other forms of engagement

Fillable notes for PowerPoints

Women and Body Image

- Our **culture** plays a role in body image.
 - Baby girls are described as "**delicate**," "**soft**," and "**pretty**."
 - Females are encouraged to define themselves in terms of their bodies.
 - The female body is portrayed by the media as an _____ of **desire**, which reinforces the _____ on their appearance.
 - The media places heavy _____ on women's physical attributes rather than their _____, performance, or accomplishments.
 - Since the 1950s, the imagined ideal female body has been seen as thinner.
 - Women have been repeatedly shown through research to experience _____ levels of _____ with their bodies. (KU research shows that women who exercise tend to have higher _____)

- Meeting with student after class for 2 min to discuss improvements in class participation

Questions before class that they will learn the answers to in class

11/7

1. List 2 strengths you have that you would like an employer to know.
2. What job/jobs are you currently interested in?
3. What knowledge do you need to have to get that job you are interested in?

11/9

1. List 2 qualifications you have that makes you a good candidate for a job you are interested in.
2. List 2 qualifications you DO NOT have that allows you to be a good candidate for a job you are interested in.
3. What is one thing you can do to make sure you have the right qualifications for the job?

11/14

1. What are 2 things you think employers are looking for in an interview?
2. Do you think it is important to practice/prepare for an interview? Why or why not?
3. What do you do to practice/prepare for an interview? (write 2 things)

11/16/17

1. How do you feel during an interview?
2. What are 2 things about interviews that make you most nervous?
3. What are 2 strategies you can do to reduce your anxiety before an interview?

Action & expression

- the HOW of learning – choices of student responses, demonstrate their knowledge
- Examples...

ENTER THIS NUMBER ON THE ANSWER SHEET TEST CODE (111111)

EXAM FOUR HSES 260 Personal and Community Health
TOTAL = 100 points Dr. Phil Lovvick
75 QUESTIONS WORTH 1.33 POINTS EACH Spring 2016

IDENTIFY THE **ONE CORRECT** ANSWER FOR EACH QUESTION.

- The right ventricle of the heart
 - pumps oxygenated blood to the lungs.
 - receives oxygenated blood from the body.
 - pumps oxygenated blood to the body.
 - receives oxygenated blood from the lungs.
- The leading cause of death in the United States is
 - accidents (injury).
 - cancer.
 - cardiovascular disease.
 - violence.
- Sam had a myocardial infarction, in other words, Sam had a(n)
 - heart attack.
 - heart stroke.
 - stroke.
 - cardiovascular accident.
- A blood clot that develops at a distant site and then travels in a blood vessel, where it eventually becomes lodged and blocks blood flow, is called what?
 - embolism.
 - thrombosis.
 - thrombus.
 - thrombocytosis.
- Kevin woke up and had difficulty speaking. He went to the hospital and, several hours later, he spoke but had to repeat. What medical condition best describes Kevin's situation?
 - hemorrhagic stroke.
 - transient ischemic attack.
 - myocardial infarction.
 - ischemic stroke.
- Hostility and anger are truly positively correlated with heart disease.
 - True.
 - False.

- The optimal range for blood pressure level is
 - systolic-less than 120, diastolic-less than 80.
 - systolic-less than 130, diastolic-less than 85.
 - systolic-120 to 130, diastolic-80 to 90.
 - systolic-140 to 150, diastolic-90 to 95.
- Atherosclerosis is a progressive process that takes years to develop and starts at a young age, average of 15 years old when beginning development of atherosclerosis.
 - True.
 - False.
- Which of the following statements regarding differences between men and women with heart disease is FALSE?
 - Health providers may be less likely to think about heart disease in women than in men.
 - Women are more likely to have an angina prior to a heart attack.
 - Women are more likely to die during angina.
 - If a woman has a heart attack, she is less likely than a man to die from it.
- What is the leading controllable risk factor for all forms of cardiovascular disease?
 - hyperlipidemia.
 - obesity.
 - diabetes.
 - alcohol use.
- Which of the following statements regarding the treatment of cardiovascular disease is FALSE?
 - Clinical-dissolving medications can decrease the damage caused by a stroke.
 - Clinical-dissolving medications can reverse blood flow in the brain.
 - Clinical-dissolving medications generally need to be administered within the first three hours of the onset of symptoms of a stroke.
 - Clinical-dissolving medications can be used for all types of strokes.
- Cardiovascular accidents are the fourth-leading cause of death in the United States.
 - True.
 - False.
- An insufficient supply of blood to tissues is defined as
 - ischemia.
 - thrombosis.
 - myocardial infarction.
 - congestive heart failure.
- Fibrous, fatty deposits on the walls of an artery describe
 - atherosclerosis.
 - hyperlipidemia.
 - myocardial infarction.
 - congestive heart failure.

Adapted Multiple Choice Exam

EXAM 4, Ch. 13 HSES 260 Personal and Community Health

Dr. Phil Lovvick

- The term used to describe the speed and intensity with which a pathogen is likely to cause an infection is
 - infectivity.
 - virulence.
 - virulence.
 - virulence.
- The acute inflammatory response is part of which immune system?
 - innate.
 - adaptive.
 - innate.
 - adaptive.
- After an infection or immunization, memory cells develop and can lead to a rapid response if the same organism is encountered by the body again. This process is known as
 - immunological memory.
 - immunological memory.
 - immunological memory.
 - immunological memory.
- The skin is the body's first line of defense against infection.
 - True.
 - False.
- The most common naturally transmitted infection in the United States is
 - hepatitis C.
 - hepatitis B.
 - hepatitis A.
 - hepatitis D.
- Frank has multiple scars on his arms, which sexually transmitted disease does Frank most likely have?
 - herpes.
 - syphilis.
 - gonorrhea.
 - chlamydia.

1. Innate cellular responses that can be found to eliminate all microorganisms

- antibodies.
- macrophages.
- phagocytes.
- phagocytes.

2. Which of the following situations has NOT been shown to transmit HIV between individuals?

- oral intercourse.
- anal intercourse.
- vaginal intercourse.
- sexual contact, even as long as hands are washed.

3. The risk of contracting sexually transmitted diseases increases with your number of sexual partners.

- True.
- False.

4. Hepatitis C most severely affects which area of the body?

- liver.
- heart.
- kidney.
- small intestine.

5. Adverse reactions occur when the same process that helps protect against infection is directed toward a self-antigen.

- True.
- False.

6. This develops as you are exposed to potential infections, infections, and vaccinations, recognizing specific targets.

- innate immunity.
- acquired immunity.
- innate immunity.
- acquired immunity.

7. Some of cellular changes that bring blood to the site of an injury or infection

- smooth muscle.
- smooth muscle.
- smooth muscle.
- smooth muscle.

8. Leading cause of infectious disease deaths worldwide

- hepatitis C.
- hepatitis B.
- hepatitis A.
- hepatitis D.

EXTRA CREDIT

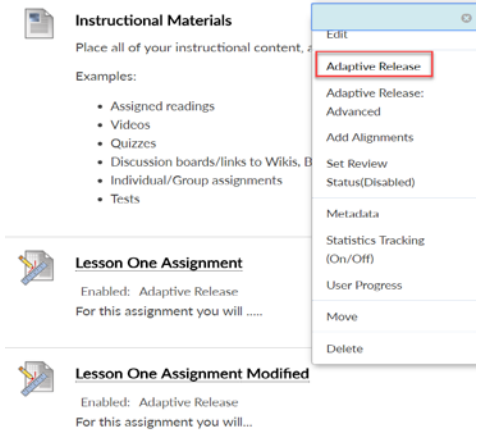

- What is the most common infectious disease worldwide?
 - HIV.
 - hepatitis C.
 - hepatitis B.
 - hepatitis A.
- Which type of white blood cell is responsible for the antibody production in the acquired immune response?
 - phagocytes.
 - macrophages.
 - granulocytes.
 - B cells.
- The lymphocytes that are responsible for maintaining the memory that occur inside the body's cells are which type of cell?
 - B cells.
 - T cells.
 - P cells.
 - T cells.
- Worldwide, three of the leading infectious disease causes of death are pneumonia, diarrhea, and tuberculosis.
 - True.
 - False.

Easy way to provide adapted material to student

Adaptive release on Blackboard

- Reduce receiving assignments in different places
- Easy grading
- Less Stigmatizing for student
- Please Provide KU-TPE GTA access**

Steps to create adaptive release available in training packet

1st Year Evaluation

- Observations
- Field Notes/Meetings
- Interviews
- End of Year Survey

1. Experiences
 - Meeting Expectations
 - Differences from Expected
2. Accommodations & Adaptations
3. Support from KU TPE
4. Different instructional methods in future
5. Training
6. Class Match to Student

- Meeting after class
- More time for tests
- Breaking tests up into chunks, fewer items, adapted wording of items
- Modifying/ “restructuring” assignments
- Adapted content (online, readings)
- Checking in during class
- Meetings and communication with KU TPE staff

OSC Program Models

- Secondary programs (MC, YSU)
- 1-year programs (CSCC, UT)
- 2-Year Certificate of Completion (OSU)
- 4-Year Generalized Studies Certificate (KSU, MC, OSU, UC)

TOPS Employment Timeline

- Every Semester: Students enrolled in at least one OSU Course
- **Year 1**
 - Unpaid internship opportunities and exposure to the world of work
 - Participate in employability skills and career exploration courses
- **Year 2**
 - Varies from unpaid internships to competitive employment
 - Eligible for student employment positions at OSU
- **Years 3 and 4**
 - Continue student employment positions
 - Begin competitive employment in area of interest

Career Services

- Employment experiences are driven by person-centered planning and are customized based on student's career goals, interests, skills and abilities
- Students participate in:
 - Career Exploration and Research
 - Informational Interviews and Job Shadows
 - Unpaid Internships and Student Employment
- TOPS is accredited by the Commission on Accreditation of Rehabilitation Facilities (CARF)

Career Services

- Internships are between 10-20 hours per week once an employment goal is determined
 - Internships should change each semester
 - If possible, students increase hours per week each semester
- Students utilize campus resources such as:
 - University Job Postings
 - Career Services Workshops
 - OSU Career Fairs

Employment Supports

- **Career Specialists and Job Coaches**
 - Provide individualized career services to students to develop, match and coordinate internships and career-related experiences
 - Assist student in learning and maintaining job skills
 - Provide guidance on interaction with coworkers and supervisor
 - Fade over time as student becomes more independent
 - Ongoing communication with student and employer
- **OSU Career Opportunity Committee**
 - Members include various university representatives that work to provide access to employment opportunities throughout the university

Employment Sites

- The Columbus Zoo & Aquarium
 - Food and Beverage
 - Guest Engagement
 - Guest Relations
 - Retail Services

Internship Sites

COSI – Animal Specialist

Columbus Museum of Art – Studio Space Intern

Employment Sites

- The Ohio State University Wexner Medical Center
 - Central Sterile Supply
 - Environmental Services
 - Patient Access
 - Patient Experience
 - Sports Medicine

Inclusive Universe:

Student Representation and Self-Advocacy in Inclusive Higher Education

SYRACUSE UNIVERSITY
LAWRENCE B. TAISHOFF CENTER
FOR INCLUSIVE HIGHER EDUCATION

SYRACUSE UNIVERSITY
LAWRENCE B. TAISHOFF CENTER
FOR INCLUSIVE HIGHER EDUCATION

The Taishoff Center is committed to increasing opportunities in higher education for students with intellectual and developmental disabilities.

FEATURES

A fully inclusive college experience!

- Academic Coursework
- Earn an SU Certificate
- Enhanced Instruction
- Supports
- Peer to Peer, Social Events
- Clubs, Student Activities
- Internships

Framework

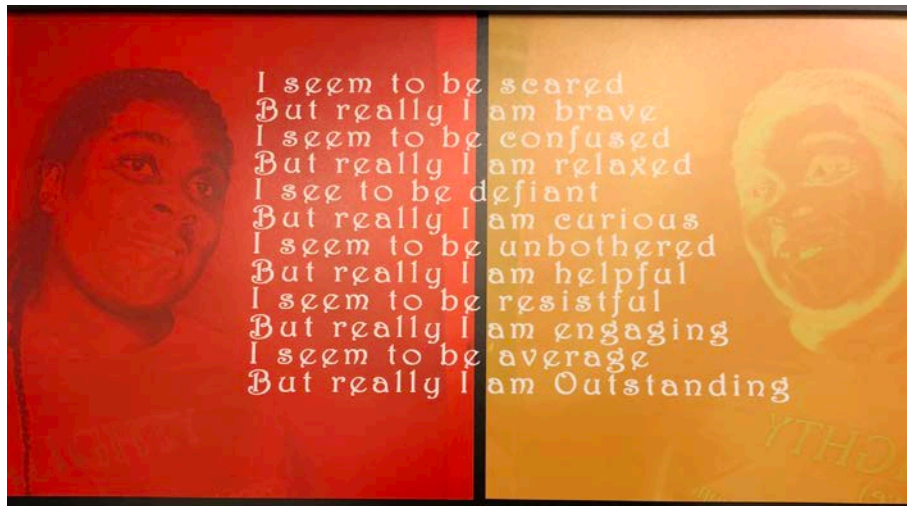

- Disability Studies
- Self-Representation
- Ethnographic Focus on the Local

SYRACUSE UNIVERSITY
LAWRENCE B. TAISHOFF CENTER
FOR INCLUSIVE HIGHER EDUCATION

SYRACUSE UNIVERSITY
LAWRENCE B. TAISHOFF CENTER
FOR INCLUSIVE HIGHER EDUCATION

SYRACUSE UNIVERSITY
LAWRENCE B. TAISHOFF CENTER
FOR INCLUSIVE HIGHER EDUCATION

Implications

- Demonstrated participation in rich college experiences
- Given the space/opportunity, ALL STUDENTS have a robust capacity for self-representation
- Self-representation link to self-advocacy
- Shifted focus to the lived experience
- Local focus with wide significance
- Can be both a compelling argument for inclusive postsecondary education and an exploration of barriers to full inclusion
- Highlights social justice issues in disability work

Millersville University

Integrated Studies @ Millersville University

- Multi-year
- Students with Intellectual Disability
- Ages 18-26
- Liberal Arts Curriculum (12 credits/semester)
- Residential
- Coaches seek to anchor students in natural supports
- “Typical College Student”
(Social Role Valorization Theory,
Wolf Wolfensberger)

Millersville University

Integrated Studies @ Millersville University

Are students who participate in this initiative benefiting?

If so, ...

- 1) In what way(s),
- 2) How much
- 3) At what cost(s)

Millersville University

Qualities of College Life Inventory

Package of short scales adapted from the Qualities of Life Inventory – that tap the dimensions of:

- *Integration/participation, relationships, connectedness*
- *How time is spent*
- *Employment, productivity, earnings*
- *Independence and control over one's life choices*
- *Satisfaction/perceived qualities of life*

-Used in hundreds of past studies of quality of life (including deinstitutionalization, supported employment, aging)
 -Children and adults with intellectual & developmental disabilities – also ASD, Alzheimer's, mental illness, special ed
 -Tested and published reliability, well established validity

Qualities of College Life

Short Scales for Tracking the Individual Outcomes of Transitional Post-Secondary Education for Students with Intellectual Disabilities

Millersville University

Methodologically...

The first set of interviews (data collection) was considered a pilot test of instruments, interviewing techniques, and reliability

We obtained encouraging positive results with the first 7 students at Millersville

We used instruments derived from QOL measures that have been used and validated for 30 years

Now we have 10 new students in Fall 2017. We interviewed 15 students – 5 in their second year, and 10 in their first

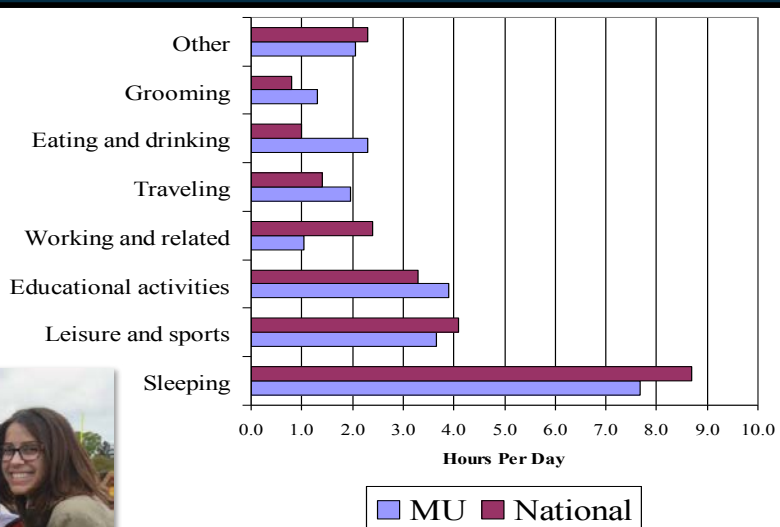

We asked all 15 to tell us how their lives had changed since coming to college

Millersville University

How Students Use the Hours in the Day

The Overall Scale –
Before & Now

(The Difference is Significant
at $p < .005$)

Millersville University

Individual Student Goals

We Asked for the Top Five of the 15 Students

These are Only the First and Second Goals Given

Goals Listed First

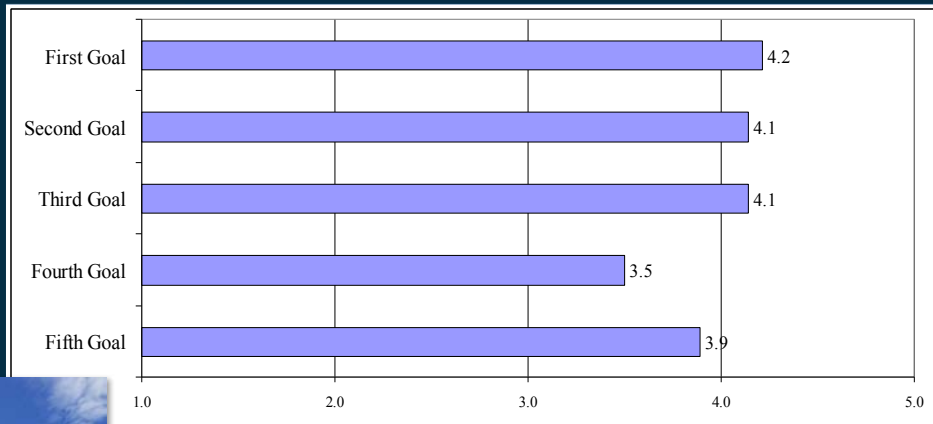

- Own an art gallery
- Be independent
- Getting assignments done on time
- Asking questions in class
- Improve bowling skills
- Independent with homework
- Make friends
- Get a good job in NC
- Stay updated with work
- Make friends
- Work
- Graduate college

Goals Listed Second

- Graduate
- Get degree
- Utilize office hours (professor)
- Become a teacher
- Get a job at Starbucks
- Making more friends
- Be social
- Move to NC
- Get involved in clubs
- Time management
- Make new friends
- Off campus job

Making Progress Toward Individual Goals

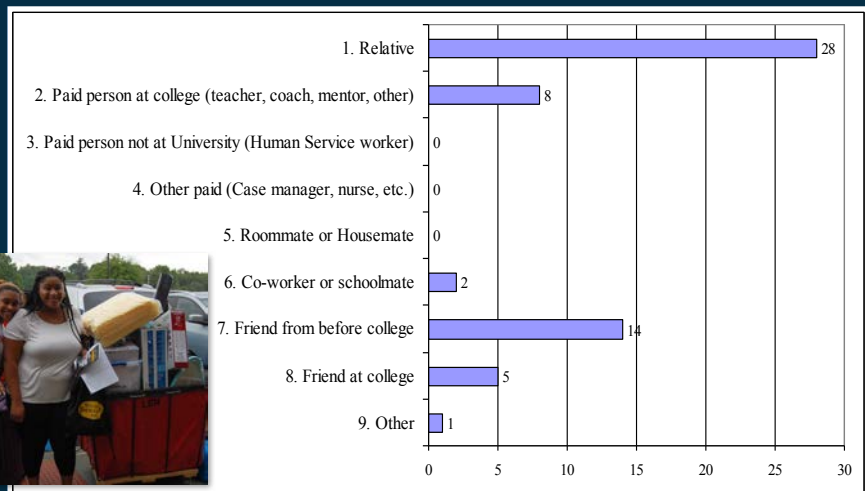

Self-Rating for the Top Five – Early and Positive

Millersville University

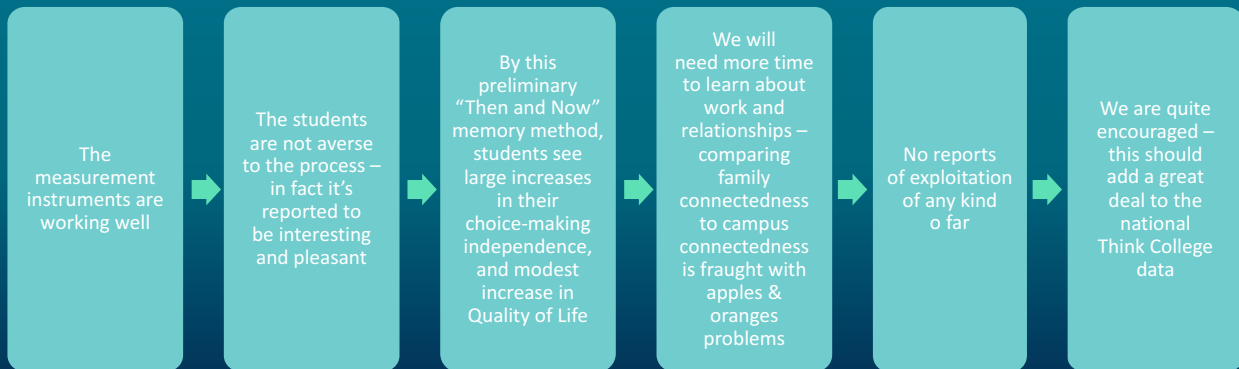

First Year: Who Are the Closest Relationships?

(Notice the Beginnings of Schoolmates and Friends at college)

Millersville University

What Have We Learned?

Millersville University

Overall Implications

- Participants have voiced that they have more control of their lives thru the decisions that they are making as a student at Millersville
- Expressions of happiness about being in college
- Students list goals that are typical for college students
- The data show perceived strong progress toward goals

Millersville University

Implications for Integrated Studies

Changed support structure for students for Academic year 2017 -18 that anchors students in natural supports as opposed to paid supports.

Promotes organic relationships
