

**STUDENT SPOTLIGHT:
RADEK DVORAK****What is your name, where are you from, and what college are you attending?**

My name is Radek Dvorak, I am from Bismarck, North Dakota, and I currently attend Minot State University under the ASTEP program and I am a sophomore.

What classes are you taking, and which is your favorite?

I am currently taking Algebra Prep III, Sociology, and an Art History course. Sociology is my favorite course.

What do you like to do when you're not attending class?

I usually hang out with friends, play video games at the student center, and attend sporting events on campus through my employment helping with the cameras for the games.

Can you name one thing that you learned about yourself while you've been at college?

That I'm a very quick learner and pick up on things easily, but there are times where I struggle and I need to ask for help from a mentor.

Who's the person who has helped you most on campus?

I think it's my Algebra Prep Professor. He has asked me what he can do to help me excel in this course.

What's good about college?

It's mostly about the education and also about college life as well, meeting new people and different cultures and attending different events.

What do you hope to do after college, after you graduate or get your certificate?

Hopefully I keep my Etsy shop running and do professional services for business logos and design.

What advice do you have for young students with disabilities who aren't sure about college?

Everything you do will be a lot of fun, always ask for help especially if the work is hard that you are given. Advocate for yourself for what you want and what you need in order to excel in college.

Radek in the campus center.

I'm a very quick learner and pick up on things easily, but there are times where I struggle and I need to ask for help from a mentor.

Do you have any advice about college for parents of students with disabilities?

I think for parents it is good to send their kids to college if they have the services to support them. Make sure that when they're in college, they have employment that suits their interest.

If you could go anywhere in the world, where would you go?

If I could go anywhere in the world I would want to go to Disneyland and experience that, with all of the rides. I am sort of a Disney fanatic, and it gives you nostalgia and lets you relive some of your favorite movies.

Minot State University Advancing Students Toward Education and Employment Program (ASTEP)!

Located at Minot State University in North Dakota, ASTEP is an inclusive college program for students with intellectual and developmental disabilities. Twenty students attended annually from all over the state as well as from neighboring states. ASTEP students participate in inclusive college courses, earn meaningful credentials, gain employment, and learn independent living and social skills.
