

TU CASA (SAP) – Satisfactory Academic Progress Tracking Form

TU CASA is a non-degree 18-month post-secondary education (PSE) program that uses the Person-Centered Planning (PCP) approach. Each student has a meeting at the beginning and end of every semester to determine their PCP for the semester. The TU CASA program offers a University Career and Experience Certificate (UCEC) upon successful completion of the program requirements when all requirements have been met. The students are enrolled in courses on a non-degree seeking zero-credit audit basis.

For students that are enrolled on an audit basis, completion requirements will be determined and agreed upon for each student through collaboration of the student, professor, and campus coordinator. A rubric will be used to identify and quantify the students' goals and progress for each course and learning contract. The TU CASA program aligns with the university's expectations of 67% for satisfactory progress to continue being enrolled in the university and the TU CASA program.

This worksheet provides a visual accounting of how the student is meeting the program requirements for the semester and documentation of Satisfactory Academic Progress. It can be created in Excel so you may update it to fit your needs. It is intended that for each line with a grade option, the user highlights the appropriate cell using the provided color code.

<u>Semester/Term XX Satisfactory Progress Assessment</u>					
Student:	Date:				
Resource Facilitator:					
Color Code:	Honors	Satisfactory	Warning	Academic Probation	
Progress Management: Determined based on consistent use of 1:1 Resource Facilitator meetings (based on regularly attending 15 weekly meetings)
