

In the past seven years, two cohorts of model demonstration projects known as Transition and Postsecondary Education Programs for Students with Intellectual Disability or TPSIDs have been implemented in the United States. The TPSID National Coordinating Center at Think College has collected data from both cohorts and is charged with evaluating the TPSID program. Cohort 1 was implemented between 2010-2015 at 57 colleges and universities. Cohort 2 began in 2015 and will continue implementation at 44 campuses until 2020. The findings below offer trend data comparing Cohorts 1 and 2, as well as data from 2015-16 (Year 1) evaluation of the Cohort 2 TPSIDs.

STUDENT SPOTLIGHT

"Attending Millersville has been a wonderful experience as far as living on campus, taking four courses, and being independent. Being in this program has changed my life. It has helped me become very independent and the program is getting us ready for the real world. I have coaches that support me and they are there if I need assistance with homework. I also have a job coach that is there to support me to apply for jobs on campus. I think for anyone that is looking to go to college, I say go for it. Let yourself experience what college is and enjoy the wonderful opportunity that college has to offer."

Janeen Simmons, student in Millersville University TPSID program

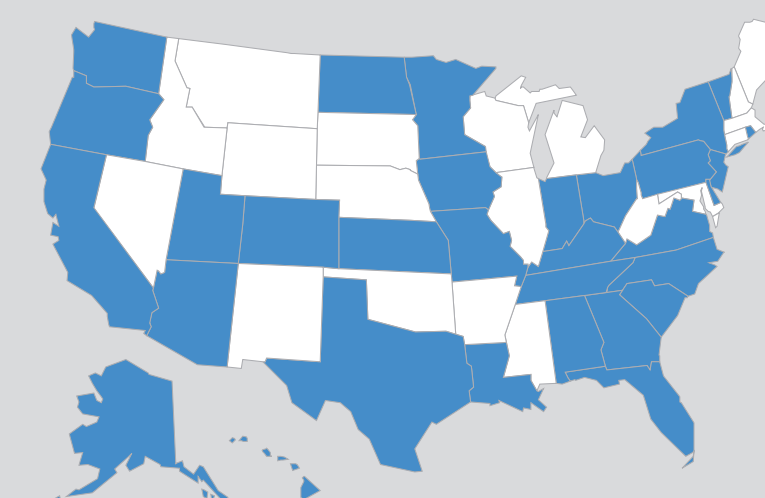

"For anyone that is looking to go to college, I say go for it."

COHORT 1 & 2 TREND DATA » 2010–2016

More than 2,700 students served

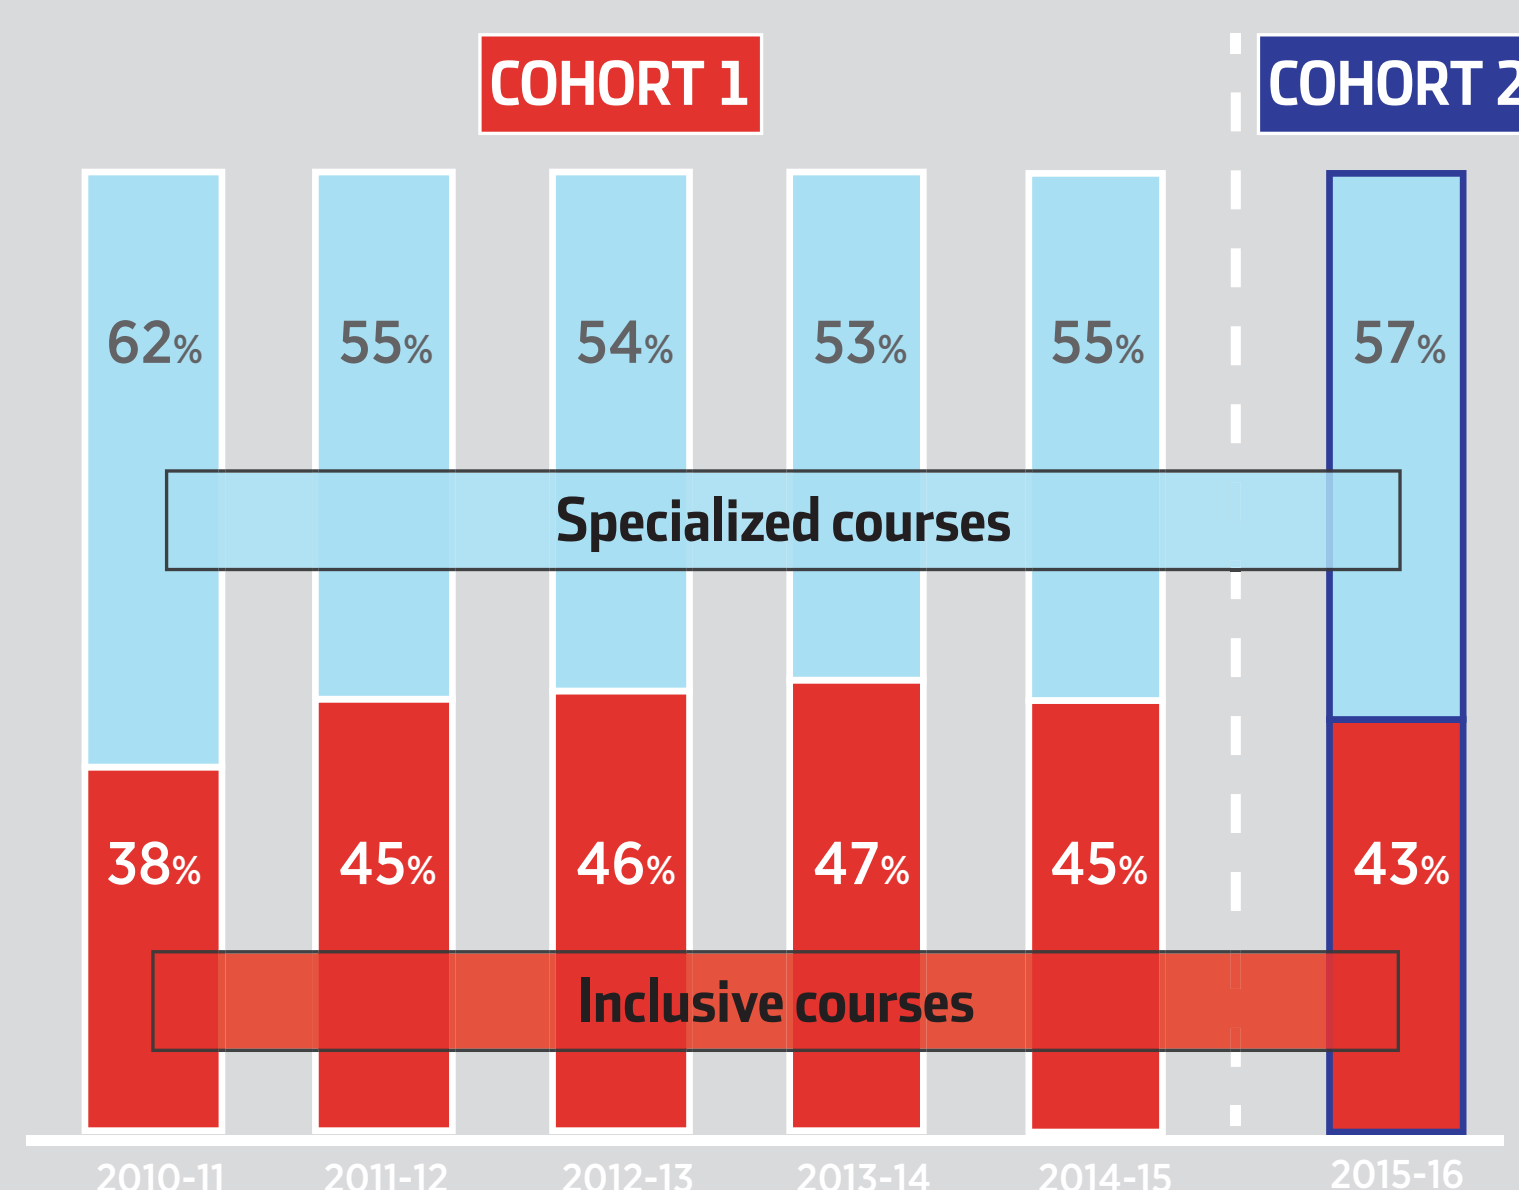

88 CAMPUSES

31 STATES

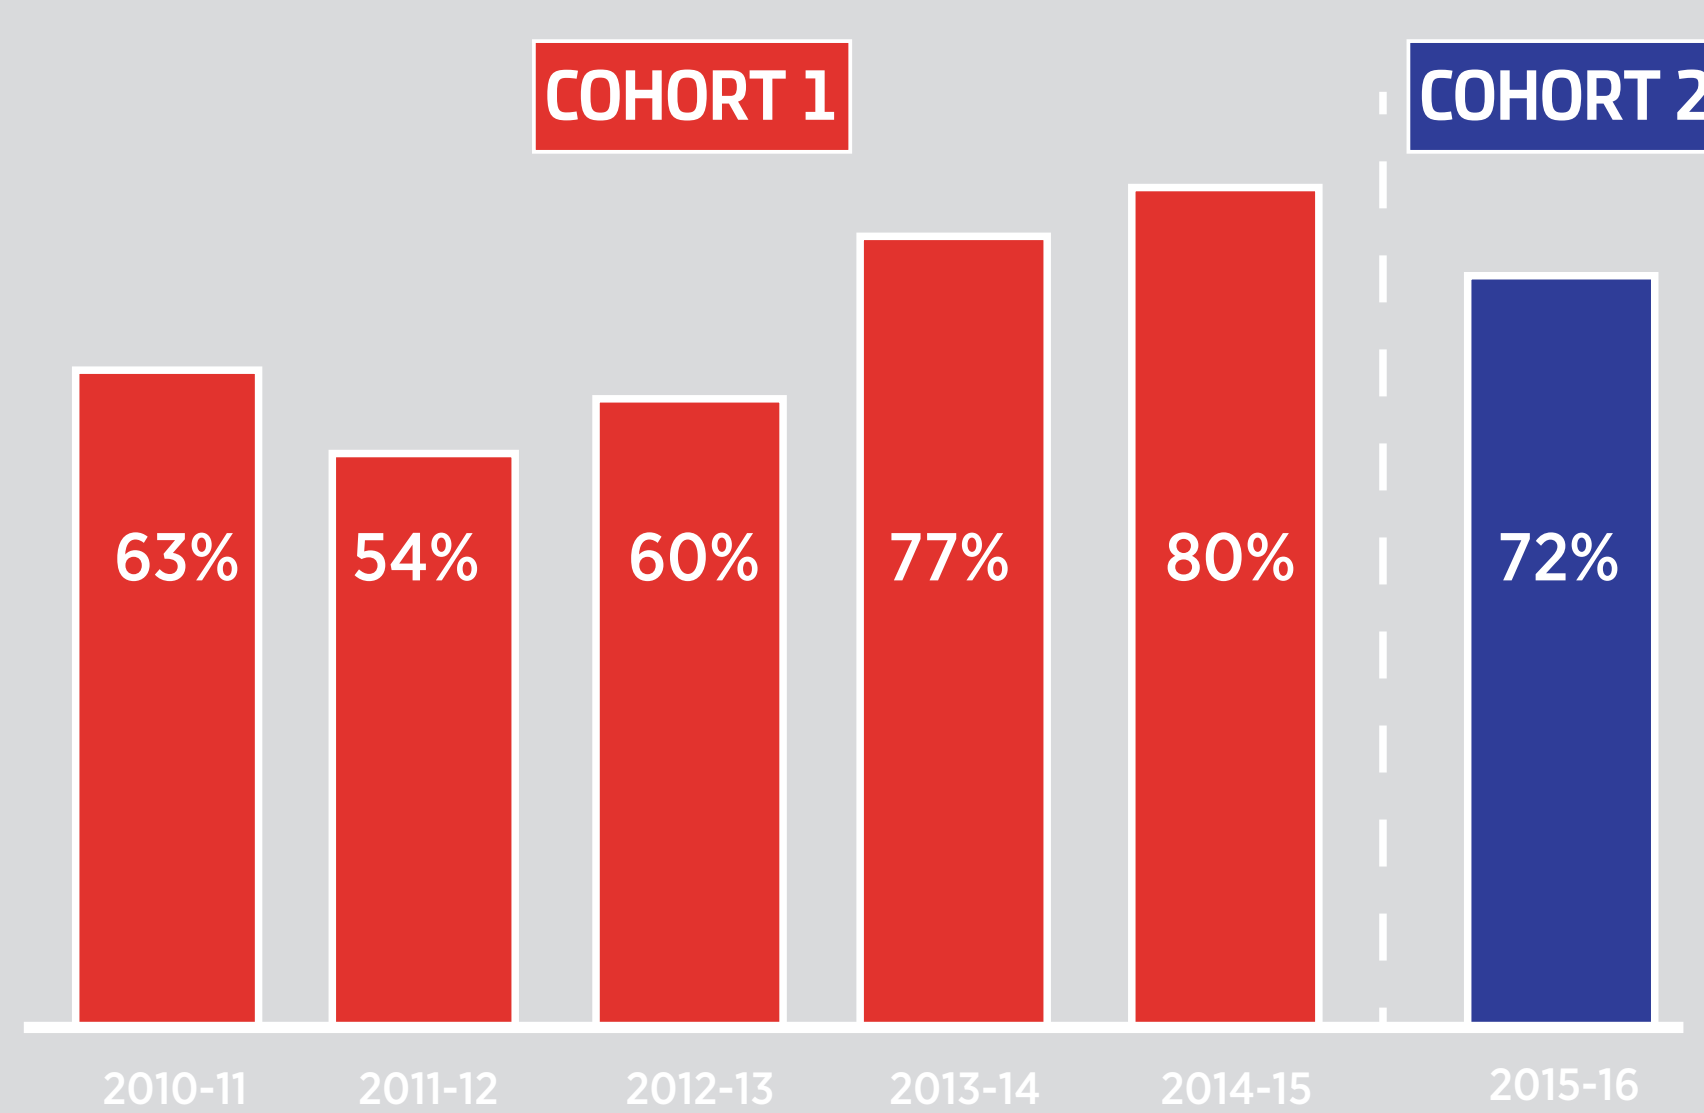

COURSE ACCESS

Inclusive vs. specialized course enrollments

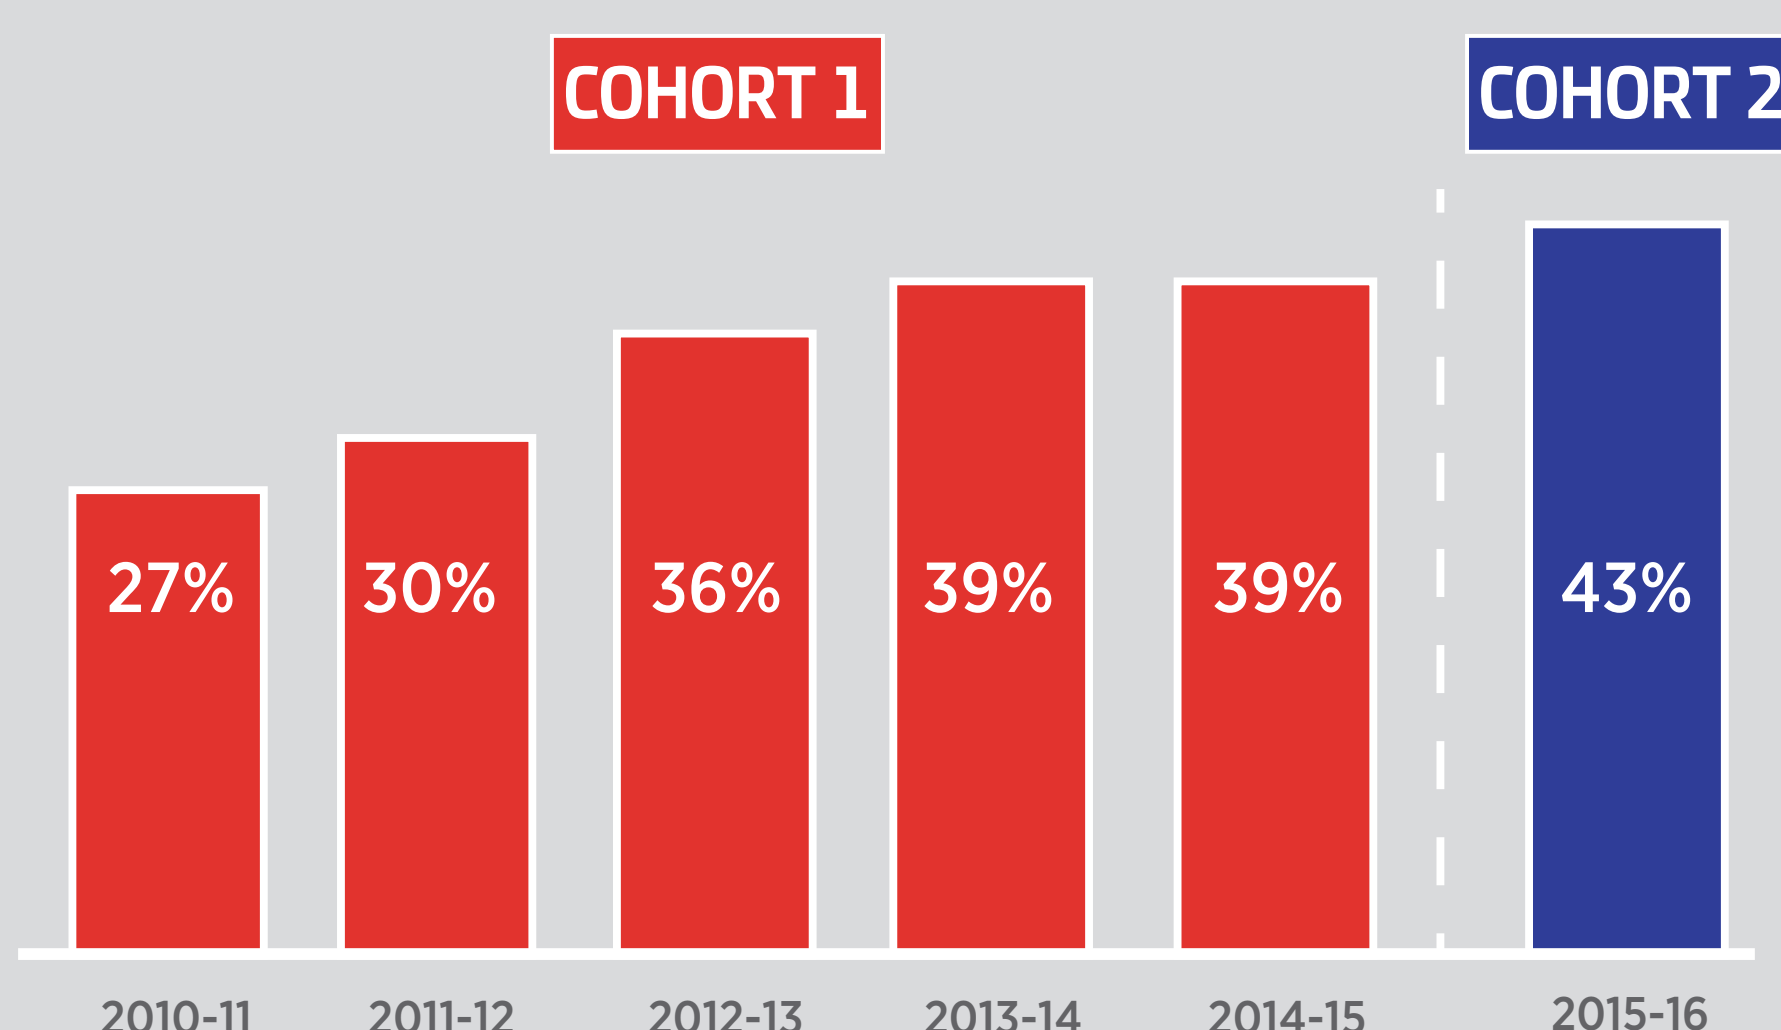

CREDENTIAL ATTAINMENT

Percentage of students who earned a credential

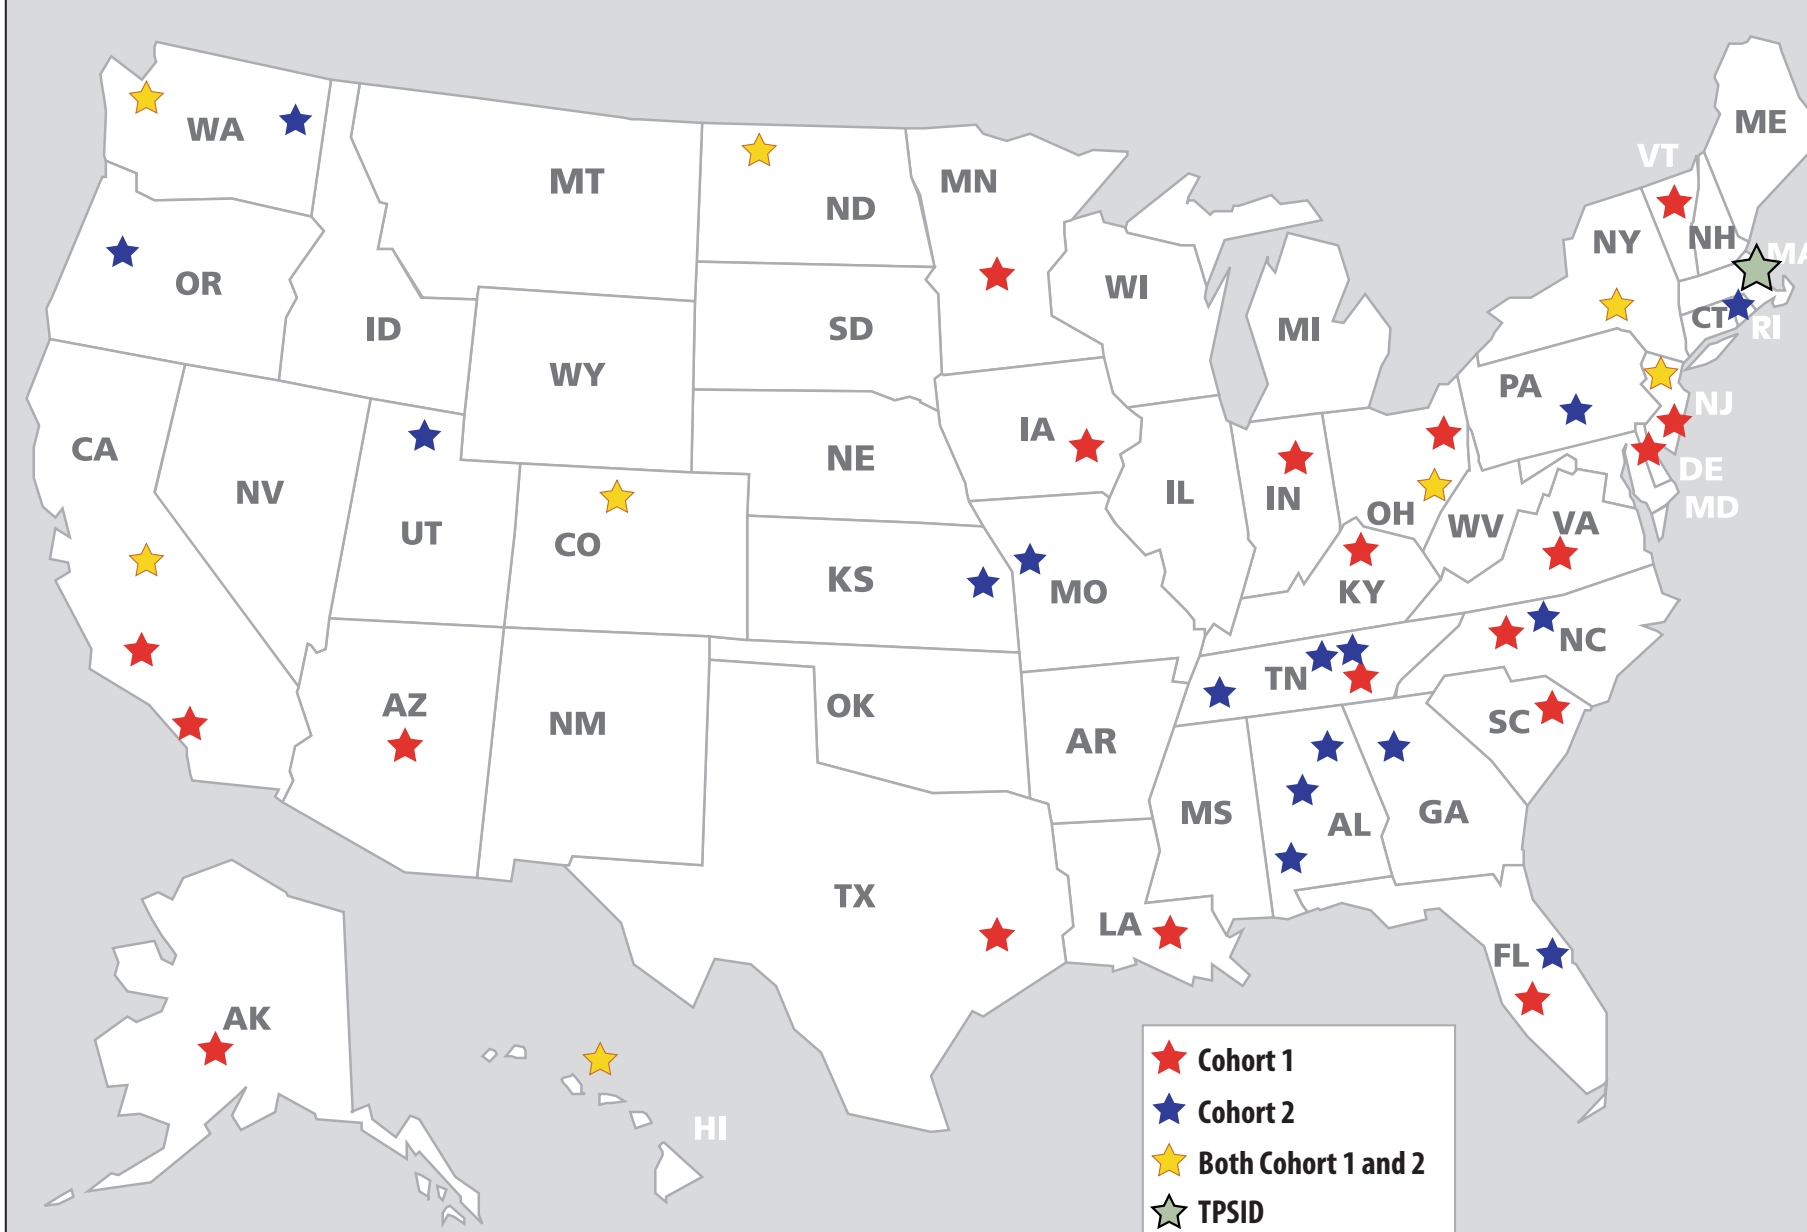

EMPLOYMENT

Percentage of students with a paid job during the program

TPSID 2010 - 2020 GRANTEEES

COHORT 2 YEAR 1 » 2015–2016

PROGRAMS

25 grantees
44 Institutes of Higher Education (IHEs)
10 2-year IHEs
34 4-year IHEs
12 Comprehensive Transition Programs
15 serve transition-aged high school students

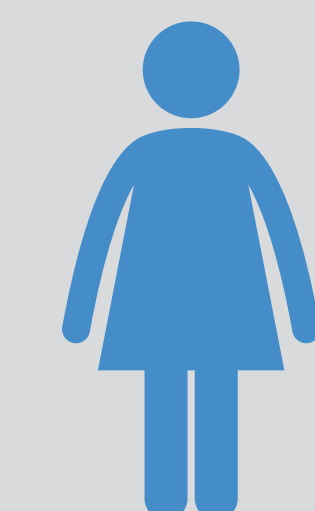

STUDENTS

449
STUDENTS

MEDIAN AGE=20
STUDENT AGES RANGED FROM 16–42

59%
MALE

41%
FEMALE

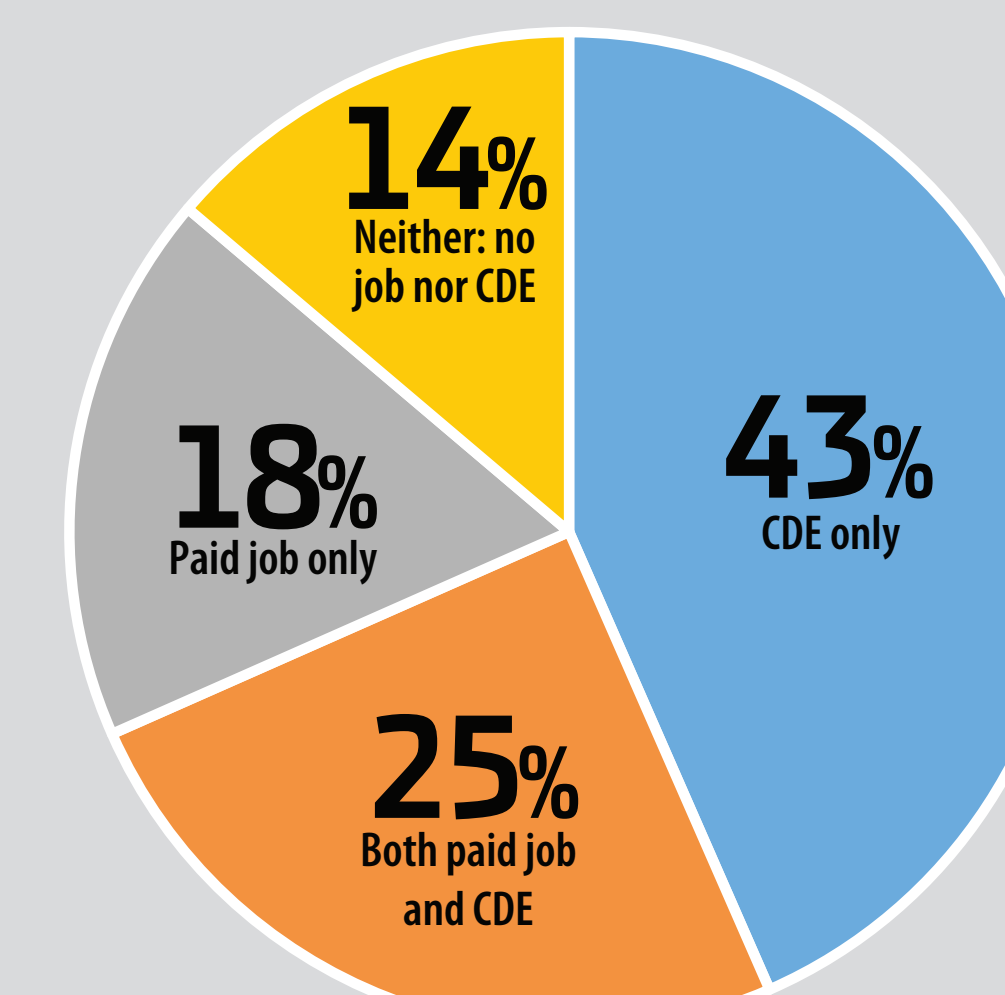

31%: percentage of students who were receiving special education services under IDEA.

EMPLOYMENT

Career Development and Employment in 2015–16

56%
of employed students had NEVER held a paid job prior to enrolling in the TPSID

ACADEMICS

3

Average number academically inclusive courses students enrolled in per year

60%

Percentage of students who received accommodations or supports from the disability services office

Students who attended programs that were more inclusive were significantly more likely to have a paid job while in the program than students who attended less inclusive programs (54.2% vs. 39.1%, $p = .002$).

CAMPUS MEMBERSHIP

78% of programs had students who joined campus organizations
17 of the 34 campuses that had residential options offered housing to students in the TPSID program
98% of students had an official student ID
