UP Graduate Outcome Survey

What is the purpose of this research?

The purpose of this study is to understand the outcomes and quality of life of University Participant Program graduates.

What will be expected of me?

Participants will only be asked to answer questions on one internet questionnaire (through SurveyMonkey) relating the current life circumstances of UP graduates.

How long with the research take?

The questionnaire contains approximately 25 questions. If you read and respond to each question then the full completion may take anywhere from 10-15 minutes.

How will you use my information?

At no point will the questionnaire ask you for your name. Other information that you provide about yourself or a UP graduate will never be used in a way that reveals the identity of the UP graduate. Trends and group level data from UP cohorts or all UP graduates will be reported.

If you choose to share more in depth opinions and attitudes by answering one open ended question your words will never be linked to you as an individual. When qualitative data is presented, direct quotes will be attributed to a pseudonym (fake name).

Can I withdraw from the study if I decide to?

Completing this survey is voluntary. Even if you start the survey you can stop at any point. Your participation in this survey will in no way affect your current or former relationship with the UP Program or Western Carolina University. After you have answered questions you have the right to not allow the researcher to use any of your responses. There will be no consequences from withdrawing or not participating in the study.

Is there any harm that I might experience from taking part in the study?

There are no foreseeable risks that you might incur by answering the questions on the internet questionnaire.

How will I benefit from taking part in the research?

Submitting your answers will help the UP Program to continue to build the most positive college experiences possible for past, current and future UP students.

Who should I contact if I have questions or concerns about the research?

Contact Dr. David Westling, westling@email.wcu.edu if you have questions about the study or contact the chair of WCU's Institutional Review Board through the office of Research Administration at WCU (828-227-7212).

Selecting 'yes' to both questions below is equivalent to your signature. You will not be permitted to continue with the study without confirming you are 18 years or older and understand the research procedures.
