

Bridging Learning and Action: The Leadership Workbook

This workbook was designed to help you put the concepts from Leadership Essentials for Middle Managers: Guiding Change from Within into action. Each section connects your learning directly to your day-to-day work and provides prompts to deepen reflection. It also invites your supervisor into the process, creating a shared space for conversation, feedback, and support. By working through these pages together, you will not only strengthen your own leadership skills, but also contribute to your organization's transformation toward Competitive Integrated Employment (CIE). Think of this workbook as a bridge between the course and your workplace, turning ideas into actions, and actions into lasting change.
