 Boston Sunday Globe piece on discrimination by John Kramer - Oct 9, 2015 11:28 am	1	5	Re: Boston Sunday Globe piece on discrimination by Nancy Nickolaus Oct 15 2015 1:31 pm
 Announcement: Employment forums for individuals and family members	3	8	Re: Announcement: Employment forums for individuals a

Here!

Step 2: Select the insert photo icon

CREATE/EDIT POST

* Subject

* Message

insert photo

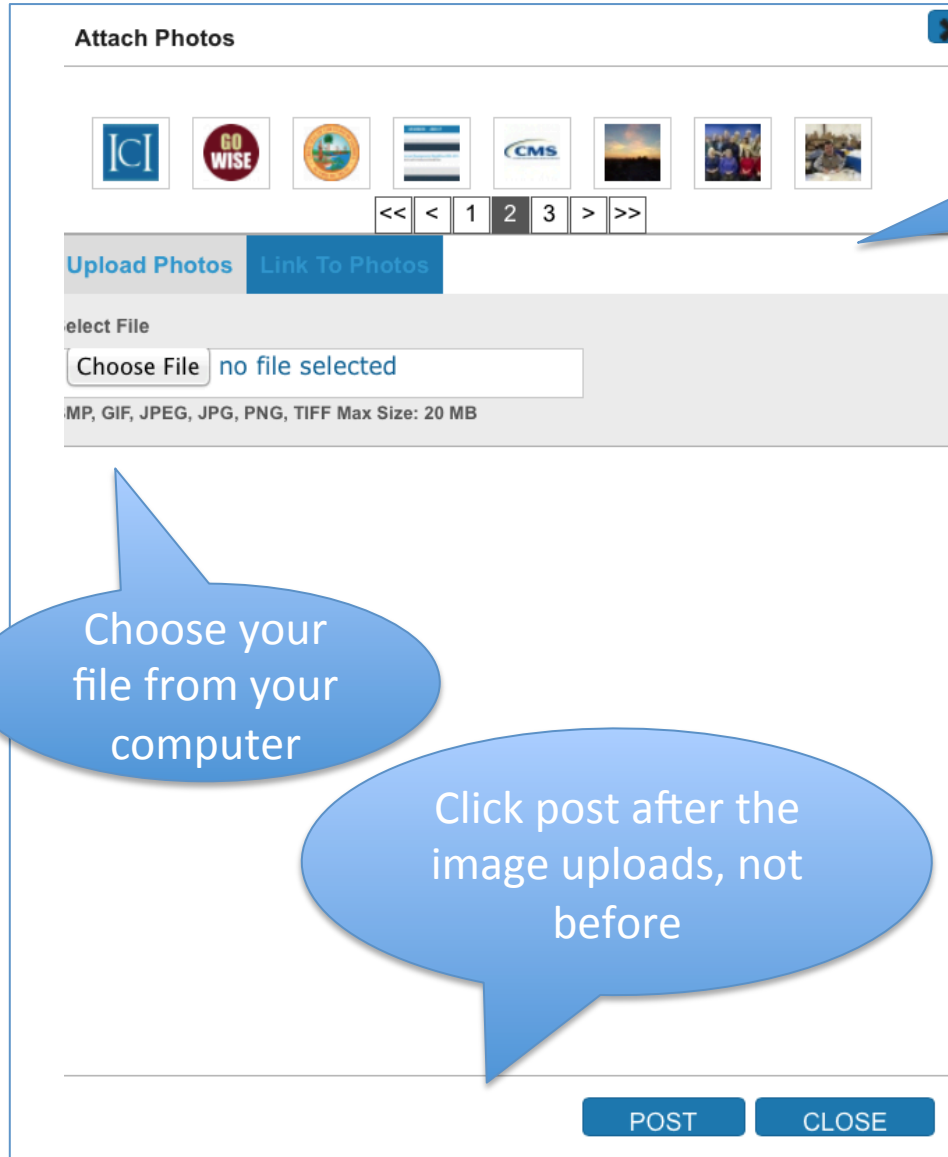

insert video

insert file

The image shows a web interface for creating or editing a post. At the top is a dark blue header with the text 'CREATE/EDIT POST'. Below this is a form with two sections: '* Subject' and '* Message'. The '* Message' section contains a rich text editor toolbar. In the toolbar, the 'insert photo' icon (a picture of a landscape) is circled in red. Below the toolbar, a modal window is open, displaying three large icons: a photo, a video film strip, and a paperclip. Blue speech bubbles point to each of these icons with the labels 'insert photo', 'insert video', and 'insert file' respectively.

Step 3: Upload a photo

The screenshot shows a web interface titled "Attach Photos". At the top, there is a row of icons for various services: ICI, GO WISE, a circular logo, a document icon, CMS, and three small landscape photos. Below these icons is a pagination bar with "<<", "<", "1", "2", "3", ">", and ">>" buttons. The "2" button is highlighted. Below the pagination bar are two tabs: "Upload Photos" (active) and "Link To Photos". Under the "Upload Photos" tab, there is a "select File" section with a "Choose File" button and a text box that says "no file selected". Below this, it says "MP, GIF, JPEG, JPG, PNG, TIFF Max Size: 20 MB". At the bottom of the interface are two buttons: "POST" and "CLOSE".

Choose your file from your computer

Click post after the image uploads, not before

Or you can choose from your photo library

Once it loads, you will be asked to title it before you can select post.

Be patient. Sometimes it takes a while.

Uploading documents works the same way.

Uploading video is a bit more complicated. Stay tuned for separate instructions!

The rest should make sense!

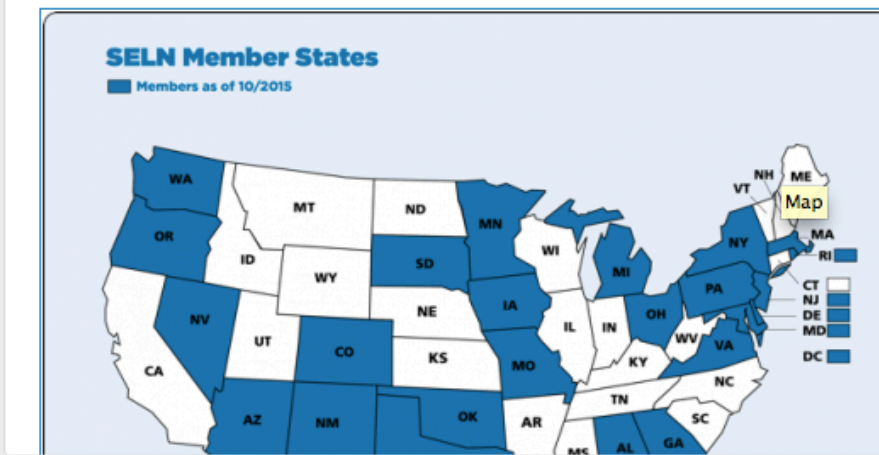

But if you want help resizing the image, continue to next slide.

Is picture too big? Double click it.

CREATE/EDIT POST

 No files attached

The screenshot shows the 'Image Properties' dialog box with the 'Image Info' tab selected. The URL field contains '/user_content/photos/000/000/18/d4ba42f46125ba7c'. The 'Alternative Text' field is empty. The 'Width' field is set to '131' and the 'Height' field is set to '100'. A blue speech bubble points to the 'Height' field with the text 'New number'. Another blue speech bubble points to the 'Preview' area, which shows a map of the United States, with the text 'Shows new size'. Below the 'Width' and 'Height' fields are 'HSpace' and 'VSpace' fields, both empty. The 'Alignment' dropdown is set to '<not set>'. At the bottom are 'Cancel' and 'OK' buttons.
