Objectives for today's meeting

- Review emerging topics from 2017 Community Life Engagement (CLE) Working Group
- Poll on Higher Performing States elements as applied to CLE
- Next steps discussion

2017 Working Group Topics

1. Individualize supports for each person
2. Promote community membership and contribution
3. Use human and social capital to decrease dependence on paid supports
4. Ensure that supports are outcome-oriented and regularly monitored
5. CLE, Employment, and the Higher Performing States Model

Individualize supports for each person

Discussion Themes:

- Providers range from “somewhat” to “not at all” successful in this
- Need for more flexibility in definitions, ratios, rates
- Roles for both residential & day supports
- Person centered planning & thinking are needed

Individualize supports for each person

State strategies:

- Adjust or eliminate staffing ratios.
- Set rates based on individualized support needs
- Allow for short term intensive 1:1 start-up supports
- Provide person centered planning/thinking training to staff, families, individuals

Promote community membership

Discussion themes:

- Difference between presence & participation
- Need to support engagement & relationships, making contributions
- Current barrier is a focus on activities rather than relationships

Promote community membership

State strategies:

- Provide values based trainings such as Social Role Valorization (SRV)
- Match staff and people with disabilities who have similar interests.
- Change service definitions to focus more on engagement.
- Self-directed supports for better matching & flexibility
- Designate agency staff to work on CLE
- Provide funding for community activities

Human & Social Capital

Discussion themes:

- *Human Capital* is the set of skills people bring to their job or community experiences.
- Can teach social & community navigation skills to increase human capital
- *Social Capital* is a person's network of relationships and the value they get from those relationships.
- Build social capital by helping people connect with community members

Human & Social Capital

State strategies:

- Teach staff to model appropriate behavior
- Intentionally teach safety skills.
- Review all policies and procedures to balance risk and opportunity.
- Look at overall program budgets and determine opportunities presented by fading.
- Use technology to ensure safety and independence

Outcome-oriented supports

Discussion themes:

- How to measure & monitor CLE?
- What are the characteristics?
- Some possibilities:
 - Membership in groups or clubs
 - Making a contribution
 - Working toward self-identified goals
 - Making real social connections

Outcome-oriented supports

State roles:

- Use existing measures, such the CQL Personal Outcome Measures and National Core Indicators
- Track individuals' plans, goals, and progress on a regular basis

Higher Performing Framework Model

Higher Performing Framework Element #1

Leadership

Higher Performing Framework Element #2

Strategic Goals and Operating Policies

Higher Performing Framework Element #3

***Financing and
Contracting Methods***

Higher Performing Framework Element #4

***Training and
Technical Assistance***

Higher Performing Framework Element #5

***Interagency Collaboration
and Partnership***

Higher Performing Framework Element #6

***Services and Service
Innovation***

Higher Performing Framework Element #7

***Performance Measurement
and Data Management***

Themes and Comparisons
Across Framework Elements

Next Steps

Possible areas of focus:

- How can quality assurance systems balance accountability with the dignity of risk?
- How can funding mechanisms be designed to encourage individualized lives with a combination of work and CLE?
- How can the broader community be engaged in supporting CLE of people with IDD?
- What existing measurement tools can be used to better assess CLE supports and outcomes?
