

Connecting with Colleagues

The Hub is about networking. Connecting with colleagues is a way to engage with other SELN members and develop relationships that may be helpful in the future as you seek advice or information related to a project.

Why connect?

- It will be easier to keep track of people. We anticipate several hundred users. You may be only interested in keeping track of 25-50.
- Your privacy settings can be customized so only your connected colleagues may view your profile and send private messages.

Find and Connect with Barb

- Search by name on the members page or browse to find her
- Once you find her, go to her profile page (just click her name or her image)
