

State Employment Leadership Network

SELN COMMUNITY LIFE ENGAGEMENT (CLE) WORKING GROUP **Thinking holistically about employment and community life**

SELN member state contacts are invited to join a five-part discussion series on the evolving topic of community life engagement. The series will be structured to address each of the four recently released CLE Guideposts, or key principles states and providers can use to move CLE efforts forward:

GUIDEPOST 1: Individualize supports for each person

GUIDEPOST 2: Promote community membership and contribution

GUIDEPOST 3: Use human and social capital to decrease dependence on paid supports

GUIDEPOST 4: Ensure that supports are outcome-oriented and regularly monitored

The SELN project team is hosting this working group series as an opportunity for colleagues to both ask and answer important questions related to established community integration practices and new or emerging work in states. All attendees should expect to actively participate in discussions through both verbal and written exchanges. The CLE working group meeting agendas will not include in-depth presentations but are instead a time for dialogue and exchange with SELN member state contacts. Attendees will contribute to the conversation by sharing their state's experiences with CLE activities, asking questions and providing feedback to their colleagues. Be mindful of this expectation as you make plans to participate.

All sessions will be held from 3:00 – 4:30pm ET

January 11th	May 11th
February 23rd	June 15th
March 23rd	

For ongoing updates and meeting details, please join the SELN's CLE working group on the Hub: www.selnhub.org

What is CLE?

Community life engagement (CLE) refers to the ways people with intellectual and developmental disabilities (IDD) access and participate in their communities outside of employment as part of a meaningful day. CLE supports may be referred to as community-based non-work, wraparound supports, holistic supports, or community integration services.

CLE activities may include volunteer work; postsecondary, adult, or continuing education; accessing community facilities such as a local library, gym, or recreation center; participation in retirement or senior activities; and anything else people with and without disabilities do in their off-work time.

Such activities may support career exploration for those not yet working or between jobs, supplement employment hours for those who are working part-time, or serve as a retirement option for older adults with IDD.

For more info, refer to the High-Quality Community Life Engagement Supports: Four Guideposts for Success available on www.SELNHub.org

NASDDDS

The SELN was launched in 2006 as a joint program of the National Association of State Directors of Developmental Disabilities Services and the Institute for Community Inclusion at the University of Massachusetts Boston.
