Data Minute

- The National Survey of State Intellectual and Developmental Disabilities Agencies' Day and Employment Services, commonly called the IDD survey, has been updated to include the data from FY2023.
- The IDD survey is a critical reference tool to communicate with partner agencies and others about employment issues and approaches. Viewers can compare numbers of people served and funding amounts in employment and non-work services nationally as well as in a state-by-state comparison.
- The ICI's IDD survey team is still accepting states' data submissions for FY2024.
