

The 2025 StateData Dash

ThinkWork
**State
Data**

The StateData Dash?

- The StateData Dash is a reoccurring part of the SELN annual meeting.
- We highlight findings from the multiple datasets available on ICI's [StateData](#) website
- Our goal is to EQUIP you with the knowledge you need to talk about data

Preseason Training

- This year we asked each state to complete some preseason training in anticipation of the StateData Dash
- Before the annual meeting states were asked to review:
 - Data Note Plus #92: [National Survey of State Intellectual and Developmental Disabilities Agencies' Employment and Day Services \(1988–2022\)](#)
 - Link to State Data homepage and the Five Questions on State Data: [StateData | Think Work](#)
 - Your state's Blue Book Appendix page: [BB_2024_web_F.pdf](#)

Measuring our progress

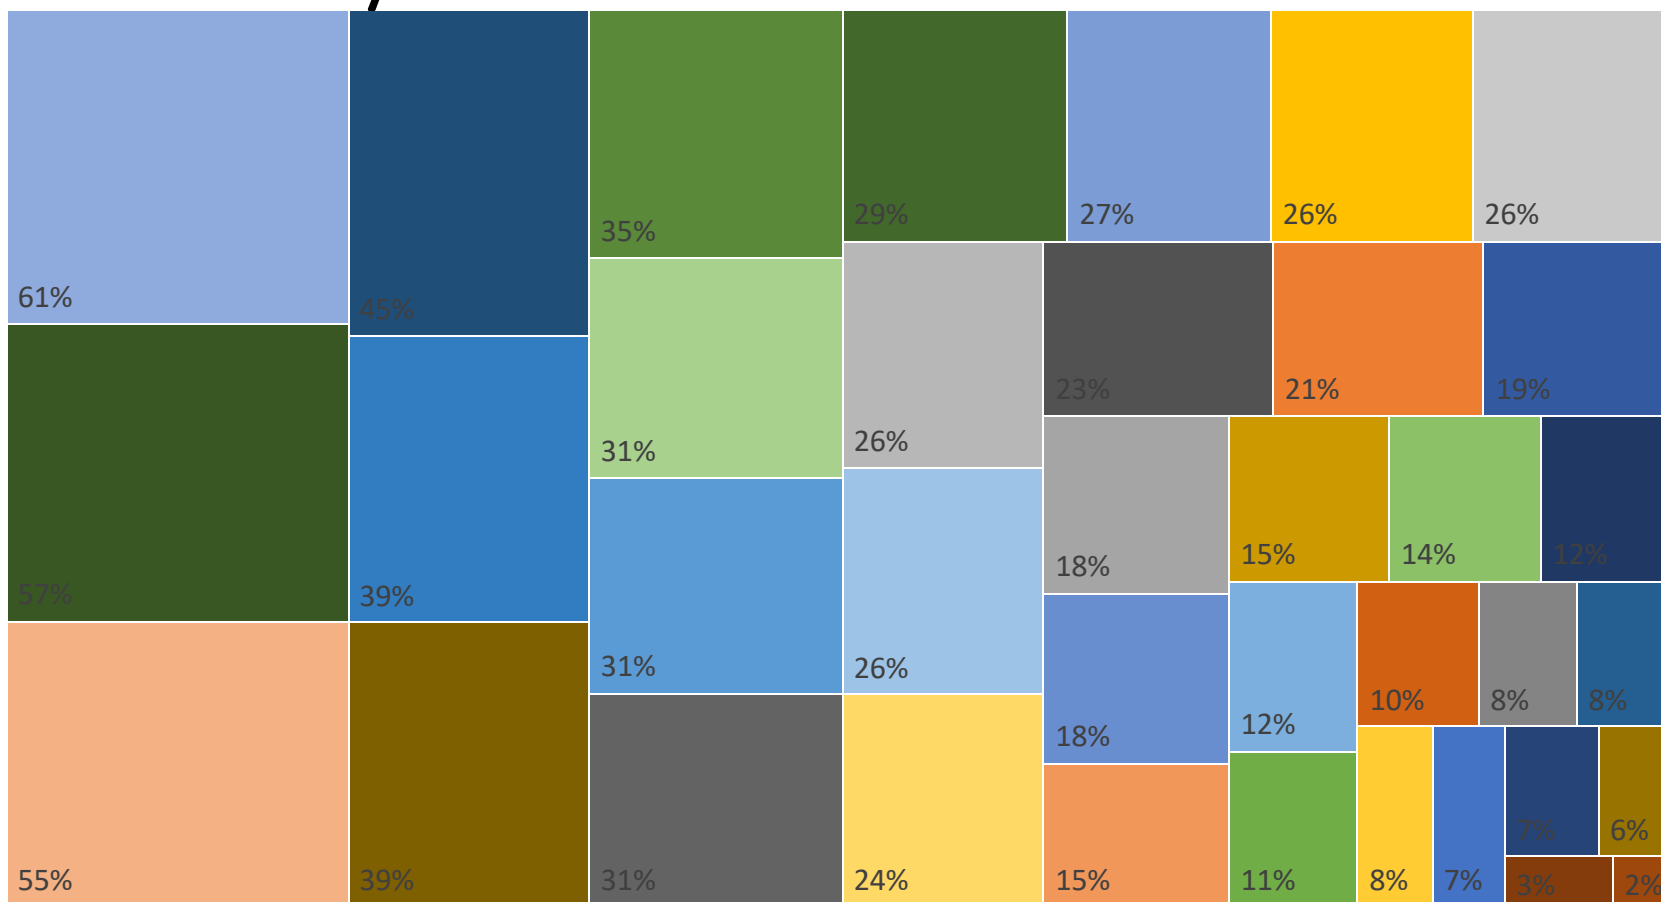

What Is Our Goal?

Employment is a Chance to Thrive

- Indicators:
 - Number of people served by state IDD agencies who are working in an integrated job
 - Closures into integrated employment for people with intellectual disability by vocational rehabilitation agencies
 - Mean hourly wage by job type

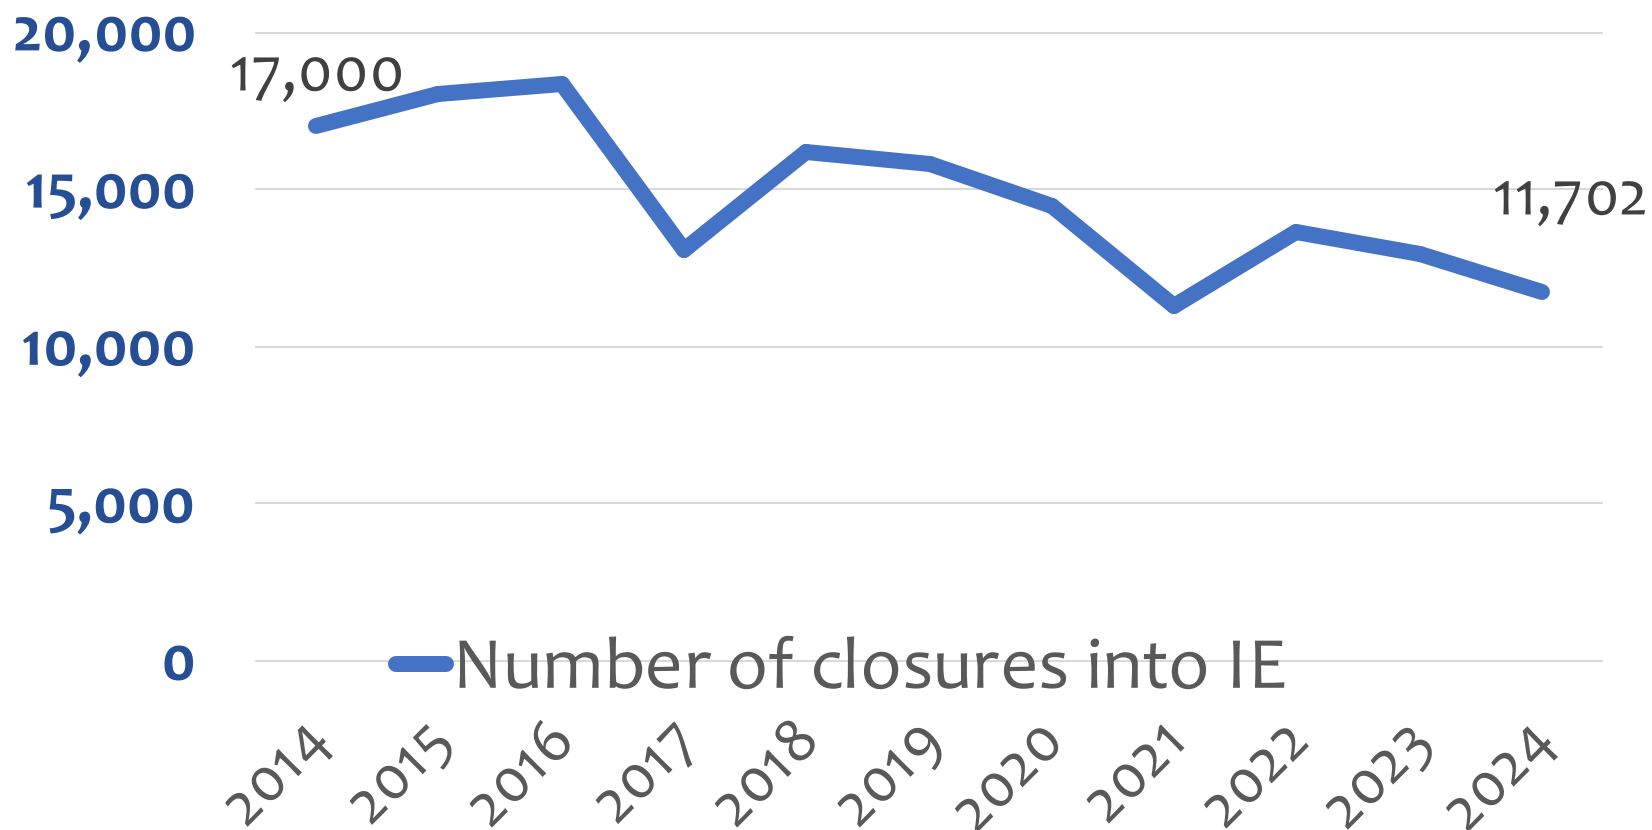

Percentage of people receiving an employment or day service who are working in the community in 37 states

Mean Hourly Wage Varies by State and Employment Outcome

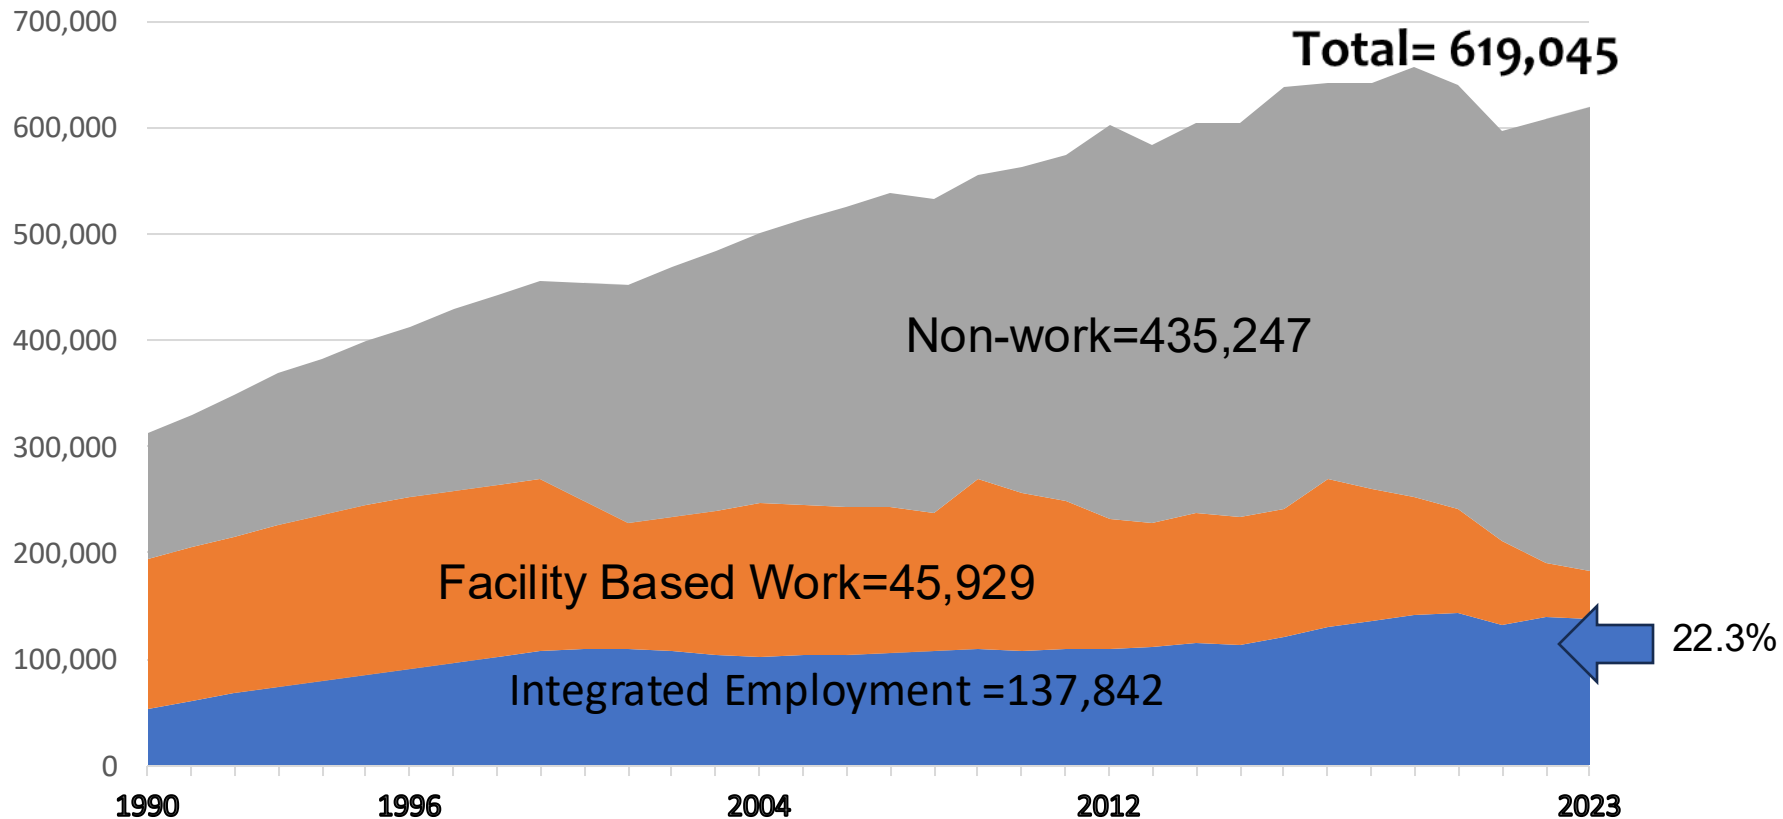

Source: [NCI 2023-2024](#)

Employment=Opportunity

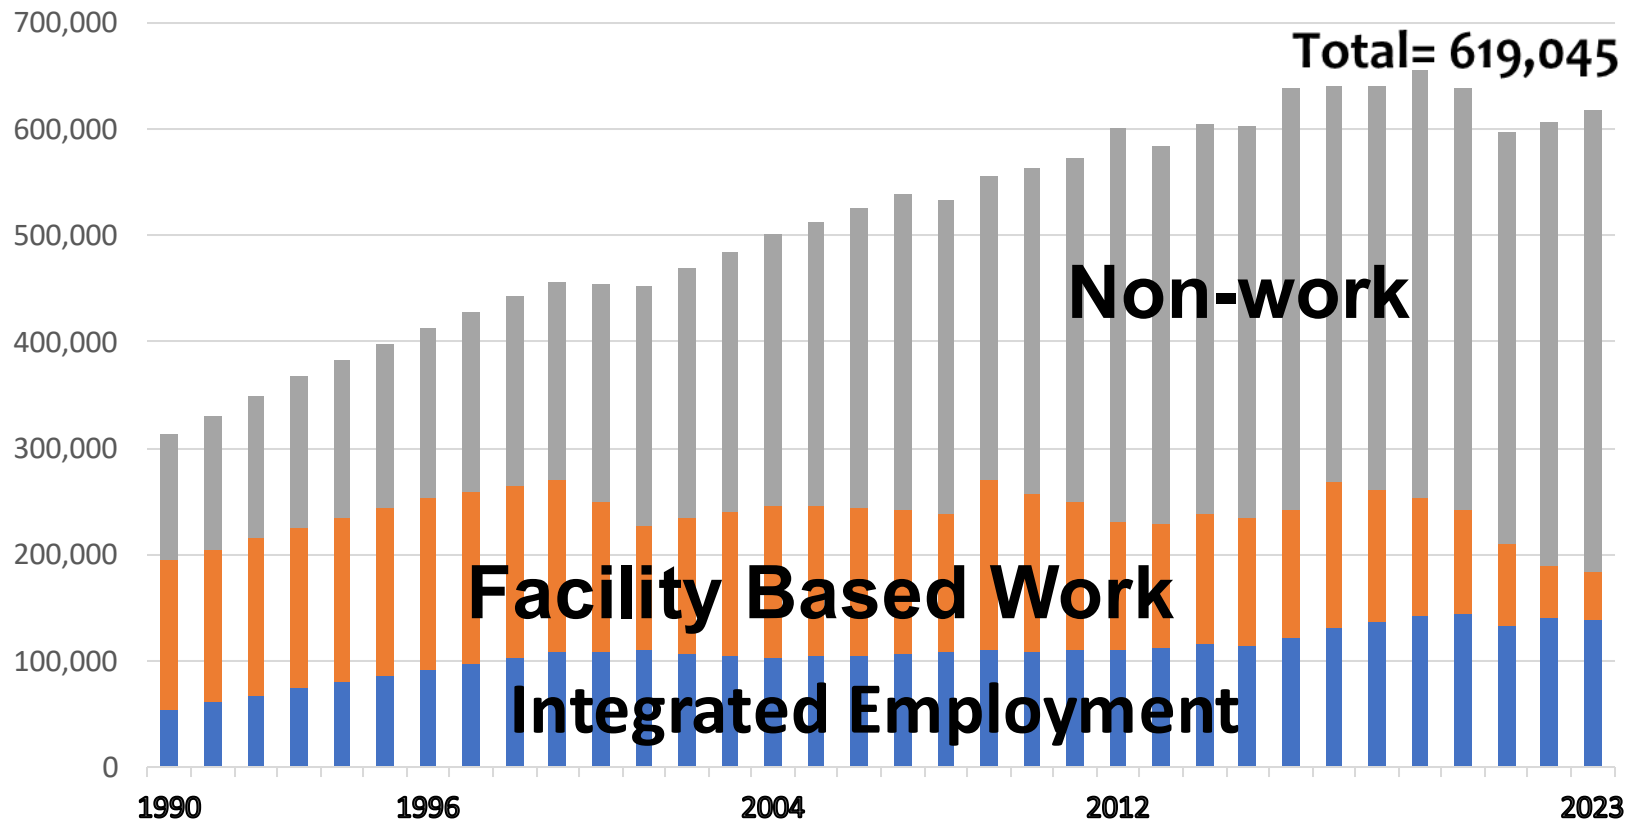

- Indicators
 - Longterm trends in employment and day service participation
 - Longterm trends in movement from facility-based work towards other services
 - Service types where people spend their non-work time

National Survey of State IDD Agencies: Number in employment and services

How people spend their day

Source: National Core Indicators 2018-2019, 2023-2024

Employment=Independence

- Indicators:
 - Percentage of people living in poverty
 - People who receive SSI who work

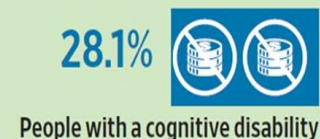

American Community Survey

- People with a cognitive disability are more likely than their peers to be unemployed and live in poverty.

Things to think about...

- If facility-based work isn't a pathway to integrated employment, what other assumptions do we need to reconsider about employment?
- How does the capacity of service providers impact the choices people have available?
- How does poverty impact people's ability to be an active member of their community?
 - Make choices?
 - Express control of their life?

THINKWORK/State Data

StateData

THE resource for data on employment for people with IDD

Think Work's State Data allows users to find, sort, and analyze data related to employment for people with intellectual and developmental disabilities. This project promotes Employment First and systems change efforts nationwide by supporting outcome-based management and planning.

Five Key Questions

1

1. How many people with IDD have competitive integrated jobs? ✓
2. How do competitive integrated employment outcomes compare for people with and without disabilities? And why is it important for people with disabilities to have access to competitive integrated employment? ✓
3. How has participation in state IDD agency employment and day services changed over time? ✓
4. How does participation in integrated employment services differ by state? ✓
5. How many people with IDD find jobs with help from state vocational rehabilitation agencies each year? ✓
