Introduction

The Institute for Community Inclusion (ICI) and the State Employment Leadership Network (SELN) has been collecting and analyzing data about state Intellectual and Developmental Disabilities (IDD) agencies' funding systems for nearly ten years. Beginning with a key finding from the High Performing States Model (Hall, Butterworth, Winsor, Glimore, & Metzel, 2007) that funding mechanisms and contracts with providers in states with high rates of integrated employment emphasize employment as the preferred outcome, revising funding rates and methodologies has been a strategy that state IDD agencies have investigated as a strategy to improve integrated employment outcomes and services. The starting point for many state IDD agencies has been to ask, "What is the correct rate to pay for integrated employment services?" However, the research tells us that it is more than the payment rate for integrated employment services that determines whether funding is a successful tool to improve integrated employment outcomes.

This document, originally presented at the November 2012 SELN Annual Meeting, is meant to help states understand the current variability across states in the payment rates and funding methodologies for integrated employment, deepen their understanding of their own payment rates and funding structures, and begin to discuss at the state level the ways in which their funding rates and methodologies may be impeding or supporting integrated employment outcomes.

Data are presented on the following topics: integrated employment participation and funding in SELN states, state level payment rates and methodologies, and a comparison of hourly rates for integrated employment services.

Integrated employment participation and funding in SELN states

Data from Table 1 comes from the ICI's National Survey of State Intellectual and Developmental Disabilities Agencies Day and Employment Services. This survey collects annual summary data on day and employment service distribution and funding at the state level. Data presented are from FY2010 and represent updates made by states as of October 31, 2012. Day and employment services include: integrated employment, facility-based work, community based non-work, and facility-based non-work. Integrated employment is defined in the survey as services that are provided in a community setting and involve paid employment of the participant. It includes: competitive employment, individual supported employment, group supported employment, and self-employment supports. The data include may include individuals who are working and those who are in the process of obtaining employment.

The state data represent information from SELN member states and the national average data represent aggregate data from IDD agencies in all 50 states and the District of Columbia. Information presented in the table is based upon data submitted to the survey by states and includes:

- *Percent individuals in integrated employment services* = (total individuals reported in integrated employment services/total individuals reported served in day and employment services)*100.
- *Percent of total day and employment dollars* = (total reported dollars integrated employment services/total reported dollars all day and employment services)*100
- *Average spending per individual in integrated employment* = total reported dollars integrated employment services/total individuals reported in integrated employment services.

Suggestions for using the information in Table 1

The data in Table 1 can be used to facilitate discussions in your state related to the use of integrated employment services and state fiscal resources to support integrated employment outcomes. Questions to guide your states discussion of the information in Table 1:

- How does our state compare to the national percent served in integrated employment? Does the percent served in integrated employment reflect our goals for employment services?
- How does our state compare to the national percent of total IDD agency budget for day and employment services in employment? Does the allocation of resources to integrated employment support our state goals for the percent of people in integrated employment services?
- Does the average amount spent per person in our state seem adequate to fund high quality integrated employment services?

Table 1: Participation in and Funding for Integrated Employment Services in SELN Member States for FY2010

State	Percent of individuals participating in integrated employment services	Percent of total day and employment dollars allocated to integrated employment services	Average spending per individual in integrated employment services
National Average	20.1%	10%	\$6,823
Arizona	18.5%	14%	\$9,502
Colorado	25%	19%	\$5,260
Connecticut	53%	27%	\$10,298
Delaware	- ¹	-	-
District of Columbia	-	-	-
Georgia	40%	10%	\$4,421
Hawaii	7%	6.5%	\$11,585
Indiana	22.5%	11%	\$2,367
Iowa	21%	11%	\$3,535
Louisiana	33%	39%	\$7,488
Maryland	39.5%	36%	\$14,647
Massachusetts	25%	15%	\$10,035
Michigan	24%	15%	\$6,411
Missouri	7%	4%	\$5,674
Montana	11%	5%	\$5,418
Nevada	20%	19%	\$10,654
New Mexico	37%	20%	\$8,508
North Carolina	17%	7%	\$5,672
Ohio	22%	12%	\$12,316
Oklahoma	61%	51%	\$7,195
Texas	7%	2%	\$2,509
Virginia	21%	18%	\$12,661
Washington	89% ²	88%	\$5,924
Wyoming	19%	4%	\$2,835

¹ Data not provided.

² 5,319 (64% of total) are in paid employment.

Collection of state level payment rates and methodologies

Prior to the November 2012 annual meeting SELN staff began to collect data from each member state on their current employment funding rates and methodologies. The September 2012 monthly meeting was used as a primer to explain the structure of the annual meeting and the rationale for having states provide their current funding rates for individual integrated employment, group supported employment, facility-based work, community-based non-work, and facility-based non-work. States also received information about the elements that make up a funding rate:

- dollar amount,
- unit of service (day, hour, half hour, 15 minutes),
- service type (individual integrated employment, group supported employment, facility-based work, facility-based non-work, community-based non-work),
- billable activities (job development, job coaching, job maintenance, discovery/career exploration),
- use of benchmark payments,
- assessment of individual level of need, and
- payment based upon participation in an activity as opposed to payment for direct service.

States were presented the format of the funding table and were able to ask questions. States were also instructed that they would receive a copy of the table and that they should complete and return the table to SELN staff prior to October 5, 2012. The copy of the table states received included the elements of a funding rate as well as three examples of how states could respond to the request based upon the characteristics unique funding system. As each state returned the survey SELN staff edited each state's table for consistency and clarity. The information presented in Tables 2-25 was provided directly from SELN member states. Several states provided data on each of their funding sources (Medicaid Waiver and state only funds) and some states provided data for multiple Medicaid Waivers that support individuals with IDD. States also provided additional information that described the operation of their funding methodology and this information was included in each state's table.

Suggestions for using the information in Tables 2 to 25

The information presented in Tables 2-25 demonstrates the wide range of rates and methodologies that states use to fund day and employment services. The information also reinforces that there is not a “correct rate” to pay for integrated employment services but rather that funding rates and methodologies must be developed as a component of systemic efforts to use all available state resources, including dollar resources, to support integrated employment as the priority service.

Questions for using the information in Tables 2-25 to discuss your state’s investment in integrated employment services over other day and employment services:

- What is the most profitable service for providers to deliver? Does this support our state’s goals for integrated employment?
- Are non-integrated employment services funded as supplements to integrated employment or are they funded as unique service options?
- Are payment rates for each service category consistent across funding sources? What burden does having different rates across funding sources place on providers? What opportunity does having different rates across funding sources offer providers?
- How easy or difficult is it to explain the payment rates for each service to stakeholders?

Table 2: Arizona Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Arizona High and low density rates are based on the number of adult DDD clients in a zip code Rural rates are approved for areas where the potential client base is fewer than 20 consumers in a 40 mile radius.	Job search= high density =\$23.97/hr; low density=\$26.38/hr Initial job coaching= high density =\$23.97/hr; low density=\$26.38/hr Ongoing job support with consumer= high density =\$15.59/hr; low density=\$17.14/hr Can be billed rounded to the nearest 15-minute increment	Group sizes range from 2-6 individuals and rates range based upon group size High density ranges from= \$5.05-\$15.63/hr Low density ranges from= \$5.82-\$17.94/hr Billable rate can be calculated on a daily basis using actual hours each day or at the end of the calendar month using the actual number of hours for the month to determine an average ratio for the month	High density=\$4.71/hr; low density=\$5.18/hr Billable for hourly unit of time in which the individual is in attendance and any fraction of an hour can be billed in 15min increments.	NA	Non-Rural range=\$4.75-\$9.00/hr based upon staff to individual ratio Rural range=\$5.75-\$9.99/hr based upon staff to individual ratio Billable for hourly unit of time in which the consumer is in attendance and any fraction of an hour can be billed in 15min increments Billable rate may be calculated on a daily basis using actual hours for each day or calculate at the end of month using the actual number of hours for the month to determine an average ratio for the month

Table 3: Colorado Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Colorado Maximum combined units allowed per Service Plan year=7,112 There are 6 Support Need Levels	Individual supported employment=\$12.01/15 min This service is intended to provide ongoing supports once an individual has been stabilized in a job. Job development and initial job coaching services are to be provided by the state vocational rehabilitation agency	Ranges=\$2.92-\$6.40/15 min based on level of need This service is intended to provide ongoing supports once an individual has been stabilized in a job. Job development and initial job coaching services are to be provided by the state vocational rehabilitation agency	Ranges=\$2.18-\$5.58/15 min based on level of need This service is intended to prepare a client for paid community employment within 5 years	Ranges=\$2.65-\$5.94/15 min based on level of need	Ranges=\$2.18-\$5.58/15 min based on level of need

Table 4: Connecticut Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Connecticut	Job development = \$47/hour of service through waiver Job coaching = \$4.48/ hour worked in paid employment through state funds Benchmark outcome payments are also made based on the number of hours of paid work for placement; and completion of three and six months of continuous competitive employment	Ranges from \$8.36-\$20.90/hour based upon level of need	Ranges from \$7.01-\$18.22/hour based upon level of need	Ranges from \$8.36-20.90/hour based upon level of need	Ranges from \$8.36-20.90/hour based upon level of need

Table 5: Delaware Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Delaware	\$49.78/hr	NA	Pre-vocational in a facility with transportation= \$30.44/hr; without transportation \$24.58/hr Pre-vocational non-facility with transportation= \$28.66/hr; without transportation \$22.80/hr		Day habilitation in a facility with transportation= \$30.44/hr; without transportation \$24.58/hr Day habilitation non-facility with transportation= \$28.66/hr; Day habilitation without transportation \$22.80/hr

Table 6: District of Columbia Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
District of Columbia Job training and support activities are activities designed to assist and support the person after employment has been obtained. Long Term Follow Along Supports are activities designed for ongoing support to maintain the person after employment has been established. Professionals are: Vocational Rehabilitation Counselor, a person with a Master's degree and a minimum of 1 year of experience, a person with a Bachelor's degree and a minimum of 2 years of experience, or a Rehabilitation Specialist Paraprofessionals are: Job Coaches or Employment Specialists	Job training & support: Professional= \$43/hr or \$10.75/15 min; Para-professional= \$25.30/hr or \$6.33/15 min Long-term follow along: Professional= \$43/hr or \$10.75/15 min; Para-professional= \$25.30/hr or \$6.33/15 min	NA	NA	Pre-vocational services=\$15.60/hr, these services occur in the community and are intended to support the individual to achieve the goal of employment in the community	Day habilitation= \$15.60/hr Pre-vocational services=\$15.60/hr, these services

Table 7: Georgia Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Georgia All rates are for individuals served by the Medicaid Waiver	Job development= \$7.26/15 min Job coaching= \$7.26/15 min Job maintenance= \$576.00/month if the individual works at least 60 hrs in community employment and the individual receives supported employment services. There is no time limit on the number of months this service can be billed If the individual works less than 60 hrs the provider must bill the 15 min face-to-face rate	\$1.80/15 min	\$3.04/15 min	\$7.26/15 min individual participates in individual activity \$3.04/15 min individual participates in group activity	\$3.04/15 min Job maintenance= \$576.00/month for 60 hours of community employment individual participates in group activity

Table 8: Hawaii Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Hawaii	3 benchmarks for payment: 1st after 30 days of employment = \$1,300; 2nd 60 days of employment = \$1,700; 3rd after 90 days of employment \$2,400 Periodic follow along services after employment on an as needed basis = \$13.50/15 min	Group sizes range from 2-4 individuals and rates range based upon group size Ranges from = \$5-\$8/15 min	Payment is not provided for facility based work	Individual = \$32/hr 2 individuals = \$5/individual/15 min 3 individuals = \$4.50/individual/15 min 4 individuals = \$3.75/individual/15 min The intent of this service is to provide assessment, benefits counseling, career exploration, career planning, volunteering and internship services and supports. This service requires an employment specialist and is limited to 2 years	\$68.88-\$120.56/day based upon level of supports

Table 9: Indiana Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Indiana Tier 1=1-5 hrs/month Tier 2=6-10 hrs/month Tier 3=11-15 hrs/month Group sizes for pre-vocational services and facility habilitation range from 2-16 individuals Group sizes for community habilitation services range from 2-10 individuals	Supported employment follow along=\$175.95-\$527.85/month based on need for individuals in tiers 1-3 Supported employment follow along=\$35.19/hr for individuals in tier 4 Workplace assistance=\$26.37/hr	\$5.67/hr	\$2.75/hr	Pre-vocational=\$3-\$8.48/hr Community habilitation=\$4.72-\$8.48/hr Community habilitation 1:1=\$22.09/hr	Pre-vocational= \$3-\$8.48/hr Facility habilitation=\$3-\$8.48/hr Facility habilitation 1:1=\$22.09/hr

Table 10: Iowa Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Iowa Group supported employment groups are a max of 8 individuals	Job development=\$909 after individual maintains job placement for 30 days, max two units per 12 month period Enhanced job search=\$34.98/hr, max 26 hrs/yr, available after 30 days of unsuccessful job development services or to assist individual in changing jobs due to layoff, termination, or personal choice. Employer development=\$909 after individual maintains job placement for 30 days, max two units per 12 month period, may be provided only to members who are reasonably expected to work for no more than 10 hours per week. Job coaching= \$34.98/hr, max 40 hrs/wk	\$6.19/hr, max 40 hrs/wk	\$13.21/hr; half-day of service (1-4 hrs) = \$24.11/day; full-day of services (4-8 hrs)=\$48.22/day	NA	Day habilitation=\$13.21/hr; half-day service (1-4 hrs) = \$32.15/day; full-day service(4-8 hrs)=\$64.29/day Family training option= \$13.21/hr. The units of services payable are limited to a maximum of 10 hrs per month Adult day care=\$22.12/ half-day (2-4 hrs); \$44.03/full day,(4-8 hrs); \$66.03/extended day (8-12hrs)

Table 11: Louisiana Rate per Service

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Louisiana There are 3 waivers in LA and they each have a different funding structure: Supports Waiver, New Opportunities Waiver, and Residential Options Waiver	<u>Supports waiver</u> Job development= \$95.02/day (6+ hrs), max 120 units Job retention= \$47.52/day (1+hrs), 240 units <u>New opportunities waiver</u> Job development 1:1=\$6.66/15 min, max 1,280 units Follow along= \$49.18/day, 52 days a year <u>Residential options waiver</u> \$2.55/15 min- (1 hr minimum) 32 units per day	<u>Supports waiver</u> Job development= \$79.49/day (6+ hrs), max 20 units Job retention= \$42.85-\$57.26/day, (1+ hrs), max 240 units, group sizes range from 2-4 individuals and rates range based upon group size Job retention= \$70.35/day, (6+ hrs), max 240 units, group sizes range from 5-8 individuals <u>New Opportunities Waiver</u> On-going support- \$2.01/15 min, max 8,320 units <u>Residential options waiver</u> \$25.48/2.5 hrs, 2 units per day	<u>Supports waiver</u> 1:1= \$75.38/day (5+ hrs), max 240 units 1:2-4=\$50.25/day (5+hrs), max 240 units 1:5-8= \$33.81/day (5+ hrs), max 240 units <u>New opportunities waiver</u> \$1.66/15 min, max 8,320 units, must be used 16 units at a time <u>Residential options waiver</u> \$22.05/2.5 hrs, 10 units per week	<u>Supports waiver</u> NA <u>New opportunities waiver</u> NA <u>Residential options waiver</u> NA	<u>Supports waiver</u> 1:1=\$75.38/day (5+ hrs), max 240 units 1:2-4=\$59.39/day (5+ hrs), max 240 units 1:5-8=\$42.95 (5+ hrs), max 240 units <u>New opportunities waiver</u> \$1.66/15 min, max 8,320 units, must be used 16 units at a time <u>Residential options waiver</u> \$18.13/ 2.5 hrs, 10 units per week

Table 12: Maryland Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Maryland For employment and day services MD has 2-part rates: a provider component and an individual component that make up a daily service rate	Provider component=\$31.78, flat daily fee paid based upon days worked Individual component=\$18.18-\$67.21/day (4+hrs), ranges based upon geographic area and individual need for support Payment is based on days worked by the person receiving services, not on amount of support provided Add-on for extra support=\$19.13-\$20.27/day, based upon need and geographic area	Provider component=\$31.78, flat daily fee paid based upon days worked Individual component=\$18.18-\$67.21/day (4+hrs), ranges based upon geographic area and individual need for support Payment is based on days worked by the person receiving services, not on amount of support provided Add-on for extra support=\$19.13-\$20.27/day, based upon need and geographic area	Provider component=\$31.78, flat daily fee paid based upon days attended Individual component=\$18.18-\$67.21/day (4+hrs), ranges based upon geographic area and individual need for support Payment is based on attendance Add-on for extra support=\$19.13-\$20.27/day, based upon need and geographic area	Provider component=\$31.78, flat daily fee paid based upon days attended Individual component=\$18.18-\$67.21/day (4+hrs), ranges based upon geographic area and individual need for support Payment is based on attendance Add-on for extra support=\$19.13-\$20.27/day, based upon need and geographic area	Provider component=\$31.78, flat daily fee paid based upon days attended Individual component=\$18.18-\$67.21/day (4+hrs), ranges based upon geographic area and individual need for support Payment is based on attendance Add-on for extra support=\$19.13-\$20.27/day, based upon need and geographic area

Table 13: Massachusetts Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Massachusetts	Currently, rates are locally negotiated between the Area Office and provider A new, standard rate has been proposed for implementation in 2013=\$8.90/15 min; \$35.60/hr, it is expected that this rate will increase in response to stakeholder input Competitive Integrated Employment Services=\$34.24/hr, is primarily used for job coaching for individuals working 15-to-20 hrs/wk or more. It is a joint procurement process in conjunction with other state agencies	Currently, rates are locally negotiated between the Area Office and provider A new, standard rate has been proposed for implementation in 2013=\$3.43/15 min; \$13.72/hr Rates for Enhanced Staffing for 1:1 and 1:3 staff to individual ratios have been proposed to support individuals who have been assessed to need a higher level of supervision than is expected in the base rate	Currently, rates are locally negotiated between the Area Office and provider A new, standard rate has been proposed for implementation in 2013=\$2.11/15 min; \$8.44/hr Rates for Enhanced Staffing for 1:1 and 1:3 staff to individual ratios have been proposed to support individuals who have been assessed to need a higher level of supervision than is expected in the base rate	\$1.94-\$10.22/15 min based upon level of need, the highest rate is a 1:1 model that is expected to be used rarely and only in exceptional circumstances These rates were implemented in July 2012 for FY2013	This program is funded by MassHealth/Medicaid as a State Plan Service \$62.88-\$92.64/day, based upon individual level of need

Table 14: Michigan Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Michigan	Job development=\$24/hr statewide av, range of \$18/hr-\$120/hr across 42 geographic areas Job coaching=\$24/hr, statewide av, range of \$18/hr-\$120/hr across 42 geographic areas	\$5/hr statewide av, range of \$8/hr-\$136/hr across 23 geographic areas	\$64/hr statewide av, ranges across 17 geographic areas	\$16/hr-\$24/hr across 23 geographic areas	NA

Table 15: Missouri Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Missouri Community employment is a flat rate across all providers The rates for facility-based work, community-based non-work, and facility-based non-work are the maximum allowable, individual rates can vary based upon contracted agreements with providers	\$9.04/15 min, max of 32 units/day or 8hrs	\$4.52/15 min, max of 32 units/day or 8 hrs, groups can be up to 8 individuals	Facility-based services are not reimbursed or under the authority of the Division of DD. These services are under the Department of Elementary and Secondary Education	Day habilitation: Individual=\$10.92/15 min, Group= \$6.39/15 min Job discovery: Individual=\$10.92/15 min Job preparation: Individual=\$10.92/15 min Group=\$6.39/15 min	Day habilitation: Individual=\$6.68/15 min Group=\$6.40/15 min Job discovery: Individual=\$6.68/15 min Job preparation: Individual=\$6.68/15 min Group=\$6.40/15 min

Table 16: Montana Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Montana Facility-based work and facility-based non-work services have payment rates based upon geographic area (regular, medium, high) and provider size (serve fewer than 25 individuals)	Base= \$353.01/month , up to 10.5 hrs/month Tier 1= \$706.02/month, 11-21 hrs/month Tier 2= \$1,042.22/month, 22-31 hrs/month Exception for 31+ hrs/month=\$33.62/hr	NA	\$19.44-\$20.13/hr, ranges based upon geographic area for providers serving 25+ individuals \$20.67-\$21.59/hr, ranges based upon geographic area for providers serving fewer than 25 individuals	NA	\$19.44-\$20.13/hr, ranges based upon geographic area for providers serving 25+ individuals \$20.67-\$21.59/hr, ranges based upon geographic area for providers serving fewer than 25 individuals

Table 17: Nevada Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Nevada Nevada allows a variable rate which is usually a combination of two rates. Example: an individual is in a facility-based group part-time and in group supported employment part-time	Job coaching=\$25.01/hr individual works	1:2=\$100.03/day 1:5=\$40.01/day Staff to individual ratio is based on individual level of support need	1:2=\$100.03/day 1:5=\$40.01/day 1:8=\$25.01/day	1:2=\$100.03/day 1:5=\$40.01/day 1:8=\$25.01/day	1:2=\$100.03/day 1:5=\$40.01/day 1:8=\$25.01/day

North Carolina NC has 2 funding sources for day and employment services: state only dollars and Medicaid 1915C waiver dollars State funded sheltered workshop is in proposal to be removed from the service array Pilot rates for a combination of community-based work and facility-based activities are currently available in 4 counties for the Community Alternatives and Employment Transitions (CAET).	<u>State:</u> Supported employment=\$11.21/15 min Long-term vocational=\$11.21/15 min <u>Medicaid 1915C Waiver:</u> Supported employment=\$7.10/15 min Long-term vocational=\$6.59/15 min	<u>State:</u> Supported employment=\$2.53/15 min <u>Medicaid 1915C Waiver:</u> Supported employment=\$1.85/15 min Long-term vocational=\$1.69/15 min	<u>State:</u> Adult Day Vocational=\$1.57/15 min Sheltered Workshop=\$3.71/15 min	<u>Medicaid 1915C Waiver:</u> Day support individual=\$5.96/15 min Day support group=\$3.54/15 min Home and community supports individual=\$5.20/15 min Home and community supports group=\$2.90/15 min	<u>State:</u> Day supports=\$75.69/day Day activity=\$3.75/15 min <u>Medicaid 1915C Waiver:</u> day support individual=\$5.96/15 min Day support group=\$3.54/15 min

Table 20: Ohio Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Ohio State minimum wage is currently \$7.70/hr and is adjusted annually Supported employment community can be delivered with staff to individual ratios of 1:1, 1:2, 1:3, or 1:4+ individuals. Enclave, vocational habilitation, and adult day support is delivered based on acuity. Individuals are assessed using the Adult Acuity Instrument and there are 4 possible scores. An individual's acuity score determines their staffing ratio. Staff to individual ratios are 1:16, 1:12, 1:6, or 1:3. There are 8 cost of doing business categorizations in the state.	Supported employment community: \$6.31-\$6.77/15 min for independent providers; \$10.06-\$10.79/15 min for provider agencies. Ranges for this service are based upon cost of doing business Initial support: state minimum wage-\$33.99/hr for independent providers; \$54.21/hr for provider agencies Retention support: state minimum wage-\$27.48/hr for independent providers; \$43.83/hr for provider agencies	Supported employment community: \$6.75-\$8.80/15 min for independent providers; \$10.76-\$14.02/15 min for provider agencies. Ranges for this service are based upon staff to individual ratios and cost of doing business. <u>Rates are the billing rates for the entire group not a rate per individual receiving service</u> Enclave: \$1.04-\$4.45/15 min, ranges based upon staff to individual ratios and cost of doing business category; or \$25.94-\$106.86/day based upon staff to individual ratios and cost of doing business	Vocational habilitation=\$1.19-\$5.07/15 min, ranges based upon staff to individual ratios and cost of doing business; or \$29.56-\$126.75/day, ranges based upon staff to individual ratios and cost of doing business	NA	Adult day support=\$1.19-\$5.07/15 min, ranges based upon staff to individual ratios and cost of doing business; or \$29.56-\$126.75/day, ranges based upon staff to individual ratios and cost of doing business

Table 24: Washington Rate per Service as of October 2012

State	Individual Integrated Employment	Group Supported Employment	Facility-based Work	Community-based Non-Work	Facility-based Non-Work
Washington The state IDD agency has two funding formulas, one for employment and one for community based non-work; these formulas are applied uniformly across the state to allocate funds on a <u>monthly basis</u> to county IDD agencies. The monthly allocation is based upon an <u>hourly rate</u> but is prorated based upon individual factors. County IDD agencies negotiate the final rates paid to providers and the state IDD agency approves the county rate.	State-to-county funding rate ranges from \$56-\$53/hr. The rate takes into account the geographic area where the individual lives. However, the state-to-county monthly service hour allocation is based on individual client support need and employment work history. The monthly state-to-county funding allocation ranges from \$280.90-\$1304.80/month.	State-to-county funding rate ranges from \$56-\$53/hr. The rate takes into account the geographic area where the individual lives. However, the state-to-county monthly service hour allocation is based on individual client support need and employment work history. The monthly state-to-county funding allocation ranges from \$280.90-\$1304.80/month.	State-to-county funding rate ranges from \$56-\$53/hr. The rate takes into account the geographic area where the individual lives. However, the state-to-county monthly service hour allocation is based on individual client support need and employment work history. The monthly state-to-county funding allocation ranges from \$280.90-\$1304.80/month.	State-to-county funding rate ranges from \$28-\$26/hr. The rate takes into account the geographic area where the individual lives. However, the state-to-county monthly service hour allocation is based on individual client need. The monthly state-to-county funding allocation ranges from \$78-\$560/month.	NA

Comparison of hourly rates for integrated employment services

SELN staff realizes that because of the complexity of the funding information presented in Tables 2-25 that states may be overwhelmed and unsure where to begin a targeted conversation about their own funding system. For this reason Table 26 presents each SELN member state's hourly funding rate for individual integrated employment services and group supported employment services. For states that use a unit of service other than 1 hour SELN staff members calculated the hourly rate. This table provides the initial information that SELN staff have found to be crucial to helping states begin to understand the adequacy of the funding system for integrated employment.

Questions to guide your state's discussion of the information in Table 26:

- How does your state define integrated employment services?
- What types of employment outcomes and services are included in your state's definition of integrated employment?
- Can providers bill for each of the activities needed to help people get an individual job?
- Are the rates paid for individual integrated employment adequate to support individuals with more significant support needs?

Table 26: Comparison of Hourly Rates for Integrated Employment Services as of October 2012

State	Hourly rate for individual integrated employment	Hourly rate for group supported employment
Arizona	Job search: high density=\$23.97/hour; low density=\$26.38/hour Initial job coaching: high density =\$23.97/hour; low density=\$26.38/hour Ongoing job support with consumer: high density =\$15.59/hour; low density=\$17.14/hour Can be billed rounded to the nearest 15-minute increment	High density ranges from=\$5.05-\$15.63/hour based upon group size Low density ranges from=\$5.82-\$17.94/hour based upon group size
Colorado	\$48.04/hour	Ranges from \$11.68-\$25.60/hour based upon level of need
Connecticut	Job development=\$47/hour Job coaching=\$4.48/hour individual works	Ranges from \$8.36-\$20.90/hour based upon level of need

Thank You

This document has been produced with the assistance of an SELN contact in each state.

Edits and corrections recorded as part of the SELN 2012 Annual Meeting dialogue and subsequent discussions will be documented and shared with each SELN member state.

The process of collecting funding-related data is both stimulating and time-consuming. Keeping it up to date is another important task and given the rapid pace of change, we encourage state contacts to relay changes to our team on a regular basis.

The SELN Project Team is particularly appreciative of the efforts of Jean Winsor, who provides routine fodder for interesting funding-related discussions. She managed to corral the content in this paper and organize it so it's a useful reference tool to many in the field.
