

Monthly Network Meeting Key Takeaways

March 18, 2026

Overview:

The meeting featured the latest Data Note on employment outcomes, Virginia's comprehensive person-centered assessment for individual service plans (ISPs), and project reminders of upcoming events.

Data Minute

Data Note 107 summarizes outcomes from the American Community Survey for people with and without disabilities in 2024.

Presentation on Community and Employment Elements in Virginia's Person-Centered ISP

- Eric Williams, Assistant Commissioner from Virginia's Department of Behavioral Health and Developmental Services, presented Virginia's person-centered ISP.
- This assessment includes a personal profile of current information and preferences in seven life areas: Employment, Integrated Community Involvement, Community Living, Safety & Security, Healthy Living, Social & Spirituality, and Citizenship & Advocacy.
- The ISP assesses employment experience, status and future employment plans and preferences, and sets a timeline for exploration of employment in the future.
- Members responded enthusiastically to the ISP's strong data tracking on the provision of skill-building services and the achievement of outcomes from those services.
- Lively discussion followed about elements to include in ISPs, and many members agreed to a plan to [share their states' ISPs](#) for comparison and quality improvement.
- The presentation was sent to the membership and is also posted [here on the Hub](#).

E-Learning

- Enrollment for the Spring section of the eLearning course closes on April 3. The section concludes on April 10.

- Enrollment for the Summer section begins on April 20 and the course begins on April 27.
